Contemporary Political Concepts A Critical Introduction

Georgina Blakeley, Valerie Bryson

Contemporary Political Concepts A Critical Introduction:

Contemporary Political Concepts Georgina Blakeley, Valerie Bryson, 2002-04-20 The language of political debate and analysis has changed dramatically in recent years Today both academics and practitioners have largely abandoned the vocabulary of the left and replaced it with a set of concepts that structure debate and set the political agenda Thus the world economy is discussed in terms of globalisation instead of international capitalism Moreover the apparently benign concepts of civil society citizenship and stakeholder have replaced those of class and class conflict poverty is about social exclusion rather than exploitation and consumer choice and worker empowerment have replaced the pursuit of class interests In today's political climate socialism is seen as old fashioned or utopian In contrast capitalism is seen as realistic and the third way is presented as the solution to all our ills This book explores the real issues behind these catchphrases of modern politics explaining what they mean and offering a critique of the ideology of which they are a part Contemporary Political

Concepts, 2014 **Contemporary Political Concepts** Georgina Blakeley, Valerie Bryson, 2002 An introduction and conclusion bracket 11 papers from a November 1999 conference at the University of Huddersfield in which British scholars of politics consider fundamental concepts underlying the field Among them are globalization postmodernism gender empowerment and social capital Distributed in the US by Stylus Annotation copyrighted by Book News Inc Portland OR

The Impact of Feminism on Political Concepts and Debates Georgina Blakeley, Valerie Bryson, 2007-10-15 Many feminists have engaged with man made concepts and approaches of traditional political analysis to produce an increasingly sophisticated and wide ranging body of thought This book starts with the idea that such work is not simply something for the girls Rather it has profound implications without which our understanding of political processes will be impoverished This book provides an accessible overview and assessment of the impact of recent feminism Each chapter takes a mainstream concept and examines critical debates around it and feminist reactions critiques It analyses the significance of feminism for the concept and considers whether it can simply be extended to include women or whether it should be radically transformed or even abandoned **Marx and Other Four-Letter Words** Georgina Blakeley, Valerie Bryson, 2005-04-20 Karl Marx's

classic definitions of class and society under capitalism are still widely used today Ideas such as class revolution production and oppression are employed across a broad range of academic subjects reaching beyond politics economics and sociology Yet these concepts within a specifically Marxist framework are not always easy to understand This book is an ideal student introduction that explains in clear and concise chapters the precise meaning and implications of each of Marx's key concepts Furthermore the contributors show how these ideas continue to be relevant and how they relate to modern society The contributors include leading academics in the field of political science Outlining clearly what each concept means they move on to situate it within cutting edge contemporary political theory Concepts include historical materialism capitalism class the state imperialism the division of labour oppression production and reproduction revolution working class internationalism

equality and democracy **The Nature of Political Theory** Andrew Vincent, 2004-03-25 In his controversial new book Andrew Vincent sets out to analyse and challenge the established nostrums of contemporary political theory The nature of Political Theory offers three major contributions to current scholarship It offers first a comprehensive synoptic and comparative analysis of the major conceptions of political theory predominantly during the twentieth century This analysis incorporates systematic critiques of both Anglo American and continental contributions The nature of theory is seen as intrinsically pluralistic and internally divided Secondly the idea of foundationalism is employed in the book to bring some coherence to this internally complex and fragmented practice The book consequently focuses on the various foundational concerns embedded within conceptions of political theory Thirdly the book argues for an adjustment to the way we think about the discipline Political theory is reconceived as a theoretically based indeterminate subject which should be more attuned to practice and history Andrew Vincent makes a case for a more ecumenical and tolerant approach to the discipline suggesting that there are different but equally legitimate answers to the question what is political theory Acceptance of this view would involve a supplementation of the standard substantive approaches to contemporary political theory The Nature of Political Theory offers a unique and idiosyncratic perspective on our current understanding of political theory making it an indispensable resource for all scholars and students of the discipline **Critical Concepts** M. Janine Brodie, Malinda Sharon Smith, Sandra Rein, 2013-02-01 Now in its fifth edition Critical Concepts An Introduction to Politics challenges readers by exploring current political issues and ethical dilemmas Focusing on fundamental concepts in political science each chapter provides readers with the critical perspectives needed to analyze the major issues we face and how political science as a discipline helps us to make sense of them The objective of this edition remains the same as previous editions to introduce readers to the fundamentals of political science to engage them with key and enduring debates and to explore both conceptual continuities and shifts in a world marked by growing insecurity political upheaval and global tensions Critical Concepts remains a contributed volume that draws on the expertise of many well known and respected Canadian political scientists **Political Theory In Transition** Noel O'Sullivan, 2013-07-04 During the past two decades there has been increasing dissatisfaction with established political categories on the grounds that they no longer fit many of the facts of contemporary life or adequately express many contemporary political ideals Political Theory in Transition explores the principal reasons for this dissatisfaction and outlines some of the most influential responses to it Key features of this textbook covers many of the important areas in political theory including Communitarianism Identity Feminism Liberalism Citizenship Democracy Power Authority Legitimacy Nationalism Globalization and the Environment includes chapters written by some of the foremost authorities in the field of political theory divided into four useful sections beginning with the concept of the individual and progressing to beyond the nation state *Political Ideologies* Andrew Heywood, 2012-04-15 A clear and accessible introduction to the political creeds and doctrines that have dominated and shaped world politics The fifth edition

has been thoroughly updated throughout and now has more on the influence of globalization on ideology and a new look page design to aid student learning

Encyclopedia of Modern Political Thought (set) Gregory Claeys, 2013-08-20 This groundbreaking new work explores modern and contemporary political thought since 1750 looking at the thinkers concepts debates issues and national traditions that have shaped political thought from the Enlightenment to post modernism and post structuralism *Encyclopedia of Modern Political Thought* is two volume A to Z reference that provides historical context to the philosophical issues and debates that have shaped attitudes toward democracy citizenship rights property duties justice equality community law power gender race and legitimacy over the last three centuries It profiles major and minor political thinkers and the national traditions both Western and non Western which continue to shape and divide political thought More than 200 scholars from leading international research institutions and organizations have provided signed entries that offer comprehensive coverage of Thought of regions and countries including African political thought American political thought Australasian political thought Australian and New Zealand Chinese political thought Indian political thought Islamic political Thought Japanese political thought and more Thought regarding contemporary issues such as abortion affirmative action animal rights European integration feminism humanitarian intervention international law race and racism and more The ideological spectrum from Marxism to neoconservatism including anarchism conservatism Darwinism and Social Darwinism Engels fascism the Frankfurt School Lenin and Leninism socialism and more Connections of political thought to key areas of politics and other disciplines such as economics psychology law and religion Notable time periods of political thought since 1750 Concepts including class democratic theory liberalism nationalism natural and human rights and theories of the state Theorists and political intellectuals both Western and non Western including John Adams Edmund Burke Mohandas Gandhi Immanuel Kant Ayatollah Khomeini Ernst Friedrich Schumacher George Washington and Mary Wollstonecraft

Public Participation and Local Governance Peter Mclaverty, 2003 Forthcoming Books Rose Arny, 2002

Contemporary Political Philosophy Will Kymlicka, 2002 This new edition of Will Kymlicka s best selling critical introduction to contemporary political theory has been fully revised to include many of the most significant developments in Anglo American political philosophy in the last 11 years particularly the new debates on political liberalism deliberative democracy civic republicanism nationalism and cultural pluralism The book now includes two new chapters on citizenship theory and multiculturalism in addition to updated chapters on utilitarianism liberal egalitarianism libertarianism Marxism communitarianism and feminism Extended guides to further reading have been added at the end of each chapter listing the most important books and articles on each school of thought as well as relevant journals and web sites **BOOK JACKET**

The Journal of Parliamentary Information , 2002 **The Indian Journal of Political Science** , 2005 *India and West Asia in the Era of Globalisation* Anwar Alam, 2008 India s foreign policy posture in recent years particularly towards the region of West Asia and North Africa WANA has been a subject of intense debate India s growing relationship with the US

and Israel and its lukewarm stand on the Iraqi crisis and the Iranian nuclear issue has been seen as a fundamental shift in the Indian foreign policy exercise Critics have accused the succeeding Indian governments during the last decade and a half of abandoning its independent foreign policy of deviating from Nehruvian national consensus in foreign policy matters and towing the pro American line Others have argued that the radical shift in the orientation of Indian foreign policy in terms of its pro American tilt bears the mark of realism and pragmatism that is dictated by the demand of globalization This book examines the political economic cultural security and diasporic dimensions of the evolving relationship between India and countries of WANA in the context of globalization

Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),2002 **The History of Political and Social Concepts** Melvin Richter,1995 Since the 1960s German scholars have developed distinctive methods for writing the history of political social and philosophical concepts This work is a critical introduction to this emerging genre the history of political and social concepts or Begriffsgeschichte Systematically surveying political social and philosophical discourses and their contexts historians of concepts track linguistically how the advent mentalities and effects of modernity have been conceptualized in contested forms After assessing the programs and achievements of this genre and analyzing extended examples of its use the author argues the need for an analogous project to chart the careers of concepts central to the political and social vocabularies of English speaking societies

Bibliographie Internationale de Science Politique ,2002 *The British National Bibliography* Arthur James Wells,2002

The Enthralling World of Kindle Books: A Comprehensive Guide Unveiling the Benefits of E-book Books: A Realm of Ease and Versatility Kindle books, with their inherent mobility and simplicity of availability, have liberated readers from the constraints of physical books.
