## **Contemporary Spanish Novel 1939 1975:**

The Contemporary Spanish Novel Samuel Amell, 1996-01-19 Although there are several annotated bibliographies of contemporary Spanish novelists this book covers critical works published on the post civil war Spanish novel as a literary form The volume cites books and articles and each citation is accompanied by a descriptive and evaluative annotation The work contains a section of entries on books and another on articles Entries within each section are arranged alphabetically Included are entries primarily for studies published in English or Spanish though some in Catalan French Galician and Italian are also cited In the last decades there has been an explosion of critical works on the post civil war Spanish novel This proliferation of material causes serious problems for scholars conducting research on the subject While there are bibliographies of particular novelists this book deals with general studies of trends topics and comparative approaches The volume primarily cites works published in English or Spanish but it also includes some in Catalan French Galician and Italian The volume is divided into two sections books and articles Within each section entries are arranged alphabetically Each citation is accompanied by a descriptive and evaluative annotation The annotations provide information about the topic content and methodology of the works cited and express an opinion of the works value The length of the annotations varies according to the importance of the topic Author and title indexes add to the utility of the work *The Literature of Spain and Latin America* Britannica Educational Publishing, 2010-04-01 From the whimsical idealism of Miguel de Cervantes Don Quixote to the magical realism of Gabriel Garc a M rquez s 100 Years of Solitude Spanish language literature has substantially enriched the global literary canon This volume examines the vibrant prose and dynamic range of both Spanish and Latin American authors whose narratives are informed as much by their imaginations as the turbulent histories of these native lands Influenced by a plethora of diverse cultures these tales truly tell a global story **Memory and Trauma in the Postwar Spanish Novel** Sarah Leggott, Ross Woods, 2013-12-11 In recent years much Spanish literary criticism has been characterized by debates about collective and historical memory stemming from a national obsession with the past that has seen an explosion of novels and films about the Spanish Civil War and Franco dictatorship This growth of so called memory studies in literary scholarship has focused on the representation of memory and trauma in contemporary narratives dealing with the Civil War and ensuing dictatorship In contrast the novel of the postwar period has received relatively little critical attention of late despite the fact that memory and trauma also feature in different ways and to varying degrees in many works written during the Franco years The essays in this study argue that such novels merit a fresh critical approach and that contemporary scholarship relating to the representation of memory and trauma in literature can enhance our understanding of the postwar Spanish novel The volume opens with essays that engage with aspects of contemporary theoretical approaches to memory in order to reveal the ways in which these are pertinent to Spanish novels written in the first postwar decades with studies on novels by Camilo Jos Cela Carmen Laforet Arturo Barea and Ana Mar a Matute Its

second section focuses on the representation of trauma in specific postwar novels drawing on elements from trauma studies scholarship to discuss neglected works by Mercedes Salisachs Dolores Medio and Ignacio Aldecoa The final essays continue the focus on the theme of trauma and revisit works by women writers namely Carmen Laforet Rosa Chacel Ana Mar a Matute and Mar a Zambrano that foreground the experiences of female protagonists who are seeking to deal with a traumatic past The essays in this volume thus propose a new direction for the study of Spanish literature of 1940s 1950s and early 1960s enhancing existing approaches to the postwar Spanish novel through an engagement with contemporary scholarship on memory and trauma in literature

Rewriting Franco's Spain Samuel O'Donoghue, 2017-10-18

Rewriting Franco's Spain Marcel Proust and the Dissident Novelists of Memory proposes a new reading of some of the most culturally significant and closely studied works of Spanish memory fiction from the past seventy years It examines the influence of French writer Marcel Proust on fiction concerning the Spanish Civil War and Franco's dictatorship by Carmen Laforet Juan Goytisolo Juan Benet Carmen Mart n Gait e Jorge Sempr n and Javier Mar as It explores the ways in which la recherche du temps perdu has been instrumental in these authors works galvanizing their creative impetus shaping their imaginative act and guiding their adversarial stance toward Franco's regime This book illustrates how these writers use Proustian themes and techniques and thereby enhances our understanding of the function of memory and fictional creation in some of the most important milestones in contemporary Spanish literature

Rewriting Franco's Spain argues that an appreciation of Proust's pervasive influence on Spanish memory writing obliges us to reconsider the notion that Franco's regime maintained a rigid stranglehold on imported culture Capturing the richness of Spanish novelists contact with literature produced outside of Spain it challenges the prevailing scholarly tendency to focus on the novelists immediate sociopolitical concerns There is more to these texts than a simple testimony of the brutality and hardship of the civil war and life under Franco By illuminating the subversive nature of Spanish novelists use of a Proust inspired practice of self writing Rewriting Franco's Spain seeks to readjust some of the ways we view the role of novelists living during the regime and in its wake It advocates a conception of novelists as dissidents teasing out the seditious undercurrent of their cultivation of self writing and examining how they disputed the regime's ideas about what culture should look like The preconception that the development of Spanish literature under Franco was stunted because Spaniards were prevented from reading works considered an affront to National Catholic sensibilities is cast aside as is the notion that Spain was isolated from narrative developments elsewhere Rewriting Franco's Spain ultimately reveals the centrality of Proust's monumental novel in the evolution of contemporary Spanish literature
