**Contemporary Transformations of Religion**, 1976     Religion in the Contemporary World Alan Aldridge, 2007-10-09 Examines the complex realities of religious belief practice and institutions ranging from the high growth rates of successful minority religious movements such as Mormons and Jehovah's Witnesses to the phenomenal rise of Pentecostalism the challenge of fundamentalism and the apparent turn from religion to spirituality     **China's Contemporary Philosophical Journey** Fangtong Liu, 2004 Liu who is identified only as a professor examines how other Western philosophical ideas besides Marxism are being studied in China He covers the modern contemporary and postmodern the humanistic trend and pragmatism studies on western philosophy and philosophy and modernization Annotation 2004 Book News Inc Portland OR booknews.com     *Contemporary Religious Movements in Taiwan* Kai-Ti Chou, 2007 Presents a study of the recruitment strategies and conversion rhetoric in contemporary religious movements focusing primarily on two movements in Taiwan Tzu Chi and Falun Gong This work demonstrates that an examination of such rhetoric has the potential to provide genuine insights into how a given religion gains adherents     New Religions and State's Response to Religious Diversification in Contemporary Vietnam Chung Van Hoang, 2017-07-03 This book approaches newly emerging religious groups through the interplay between religious and non religious spheres in the specific context of Vietnam It considers the new religious groups as a part of religious reconfiguration in Vietnam caused by intensified interactions among these spheres It explores changes of relationship between religions and changes between the religious sphere and the political economic and public spheres in contemporary Vietnam Specifically it traces trajectories of religious development in relation to politico economic changes in this rapidly modernising nation It tests a hypothesis that at least some new yet unrecognized new religious groups have a positive active role in modernisation rather than a negative reactive role To this end the book draws on a number of research approaches and methodologies in an effort to provide readers with a multi faceted understanding of Vietnam's new religious groups The research is interdisciplinary in orientation drawing on sociology and anthropology It is also comparative in that it bases its argument on a consideration of three distinct new religious groups in Vietnam The research is also qualitative and ethnographic in that it drew on some of the techniques associated with participant observation during a sustained period of fieldwork amongst the three religious groups The concept of religious reconfiguration developed in this book provides a

framework for the study of religion in Vietnam which opens the way to further analysis from a comparative perspective Meanwhile an emphasis upon religious reinvention which addresses processes of remaking transforming legitimating and accommodating can be useful for research into New Religious Movements elsewhere in Asia A research in the challenges of new religions could act as a catalyst for interdisciplinary studies based on detailed empirical study of religious diversity and of religious freedom by other scholars It is hoped that this research might help to give a voice to religious minorities that are often the victim of stereotyping misunderstanding and punitive treatment The book is suitable for post graduate students and social researchers who are interested in religious revival religious diversification State religion relationships and State s regulation of new religions Contemporary Review ,1897 **New York Court of Appeals. Records and Briefs.** New York (State)., **Controversies in Contemporary Religion** Paul Hedges,2014-09-09 Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world Written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe **Controversies in Contemporary Religion Education Law Politics Society and Spirituality** is a three volume set that addresses a wide variety of current religious issues analyzing religion s role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest Providing in depth context and analysis far beyond what s available in the news or online this work will enable readers to understand the nature of and reasons for controversies in current headlines The first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies These volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of Buddhism and violence Written by a range of experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends *The Sociology of Religion* Grace Davie,2008 *The Contemporary Review* ,1926 **Brieux and Contemporary French Society** William H. Scheifley,1917 **Religious Fundamentalism in the Contemporary World** Santosh C. Saha,2004-01-01 Today new and ever more pernicious forms of terrorist violence threaten the world Because these new forms of violence are so often linked to religious radicalism modern terrorism has challenged the secular ethics of contemporary civil society There is a pressing need to understand modern religious movements that have added militancy and belligerence as fundamental elements of religious practice Contributors to this volume painstakingly tackle the question of how to define the contours of current religious fundamentalism as they examine the private and public postures of fundamentalist rhetoric the importance of its regional variants and the damage it can do to regional and national education systems Their analysis tracks trends in religious movements that aspire to

radicalize reform and violently topple governments and nations while highlighting the difference between fundamentalist interpretations and other longstanding juridical political and intellectual traditions

**Contemporary New Age Transformation in Taiwan** Shuquan Chen, 2008 The first comprehensive analysis in English of the social dimension of Taiwan's New Age movements this work employs a qualitative approach to test the ideas that underlie many sociological accounts of New Age phenomena and late modernity for the purpose of explaining the movement's distinctive path of development

The Transformation of Contemporary Conservatism Brian Girvin, 1988-10 Since the electoral successes of several conservative governments in 1979 conservative ideas and politics have been placed at the centre of the political agenda of the liberal democracies for the first time since 1945 This book studies the experience of a number of representative conservative parties in Europe and the United States It explains the success of conservatism since the 1970s by examining the political cultures the characteristics of particular parties or forms of conservatism and the social bases of conservatism in particular countries

**The Way of the (modern) World, Or, Why It's Tempting to Live as If God Doesn't Exist** Craig M. Gay, 1998 Does God really matter for today's Christians Craig Gay addresses this issue in his *The Way of the Modern World Or Why It's Tempting to Live As If God Doesn't Exist* Gay takes a critical look at the modern world and exposes the foundational worldview of contemporary secular society and the ideas that undergird modern culture Gay shows how for Christians one of the most seductive temptations fostered by these ideas is the temptation toward practical atheism living as if God does not matter Practical atheism has become so attractive that even some Christian churches have embraced it In *The Way of the Modern World* Gay describes in detail the far reaching consequences of practical atheism and what it will eventually mean for Christians Yet Gay is not without hope for today's Christians Arguing for the eviction of certain modern ideas from our churches he shows that there is a biblically sound way to live in but not of the world
