Roll, 1995

Christmas exerts an enormous attraction today even apart from its Christian character as a celebration of the incarnation of God in the Person of Jesus Even marginal or indifferent Christians crowd the churches on Christmas Eve and in highly commercialized and technologized Western societies the Christmas season is celebrated with enthusiasm Yet Christmas entered the calendar of feasts relatively late by 336 C E and the reason for its introduction and quick spread remain speculative and based on fragmentary evidence Towards the Origins of Christmas addresses both the contemporary Western celebration of Christmas and its deep historical roots in the church of the fourth century The book presents a thorough investigation of the patristic texts and evidence cited by liturgical scholars in the late 19th and 20th centuries to support two main theories the Calculation theory and the History of Religions theory This historical research is set in the framework of the contemporary experience of Christmas the dynamics of time and the liturgical year the inculturation of liturgy and underlying elements of dualism and patriarchal power paradigms which linger beneath the often commercial and sentimental character of Christmas today Suzan K Roll was born in Clarence Center New York USA in 1952 She holds degrees in classical languages and pastoral theology and in 1993 received a Ph D from the Faculty of Theology of the Catholic University of Louvain Leuven Belgium summa cum laude with the congratulations of the jury She has taught and published in the field of liturgy sacraments pastoral theology and presently teaches at Christ the King Seminary Buffalo New York USA      **Bruno**
