Deterrence, Choice, and Crime, Volume 23 Daniel S. Nagin, Francis T. Cullen, Cheryl Lero Jonson, 2018-04-17 Deterrence Choice and Crime explores the various dimensions of modern deterrence theory relevant research and practical applications Beginning with the classical roots of deterrence theory in Cesare Beccaria's profoundly important contributions to modern criminological thought the book draws out the many threads in contemporary criminology that are explicitly mentioned or at least hinted by Beccaria These include sanction risk perceptions and their behavioral consequences the deterrent efficacy of the certainty versus the severity of punishment the role of celerity of punishment in the deterrence process informal versus formal deterrence and individual differences in deterrence The richness of the volume is seen in the inclusion of chapters that focus on the theoretical development of deterrence across disciplines such as criminology and economics In an innovative section the role of agents of deterrence is considered Lessons are learned from the practical applications of deterrence undertaken in the areas of policing corrections and the community The closing section includes Michael Tonry's An Honest Politician's Guide to Deterrence Certainty Severity Celerity and Parsimony a reminder of Beccaria's dictum that it is better to prevent crimes than punish them In the current environment deterrence arguments are routinely used to justify policies that do just the opposite Ray Paternoster who contributed two chapters passed away as this volume was being finalized Fittingly this book is dedicated to him and ends with Alex Piquero's poignant remembrance of Ray a path breaking deterrence scholar beloved mentor and ardent supporter of social justice Suitable for researchers and graduate students as well as for advanced courses in criminology this book breaks new ground in theorizing the effects of punishment

and other sanctions on crime control **The Policing of Flows** Anthony Amicelle, Karine Cote-Boucher, Benoît Dupont, Massimiliano Mulone, Clifford Shearing, Samuel Tanner, 2020-05-21 Rectifying the fact that little criminological attention has been paid to the notion that the security of flows increasingly embodies concerns at the heart of contemporary policing practices this book makes a significant contribution to knowledge about the policing and security governance of flows The book focuses on how the growing centrality of flows affects both contemporary risks and the policing organisations in charge of managing them The contributors analyse flows such as event security border controls and migration the movement of animal parts security related intelligence and organisational flows The emerging criminology of these as well as flows of money information and numerous commodities from pharmaceuticals to minerals or malicious software is leading to critical advances in the understanding of the changing harm landscapes and the practices that have developed to manage them Taken as a whole the book opens up the conversation and encourages the invention of new conceptual theoretical and methodological tools to help criminology tackle and better understand the mobile world in which we live This book was originally published as a special issue of Global Crime Criminal Courts Craig Hemmens, David C. term process oriented and radically relational perspective of contemporary Weberian and Eliasian scholarship Among the areas of comparative investigation explored here are street crime gangs and urban violence genocide and murderous ethnic cleansing warfare colonialism and human rights Written in a clear and direct style this book will appeal to students and scholars of criminology sociology and all those interested in what a sociological lens brings to the practices of contemporary criminology *Contemporary Issues in Criminological Theory and Research* Richard Rosenfeld,Kenna Quinet,Crystal A.
