The Stem Family in Eurasian Perspective Antoinette Fauve-Chamoux, Emiko Ochiai, 2009 Is the Asian stem family different from its European counterpart This question is a central issue in this collection of essays assembled by two historians of the family in Eurasian perspective The stem family is characterized by the residential rule that only one married child remains with the parents This rule has a direct effect upon household structure In short the stem family is a domestic unit of production and reproduction that persists over generations handing down the patrimony through non egalitarian inheritance In spite of its ambiguous status in current family typology as something lurking in the valley between the nuclear family and the joint family the stem family was an important family form in pre industrial Western Europe and has been a focus of the European family history since Fr d ric Le Play and more recently Peter Laslett However the encounter with Asian family history has revealed that many areas in Asia also had and still have a considerable proportion of households with a stem family structure The stem family debate has entered a new stage In this book some studies that benefited from recently created large databases present micro level analyses of dynamic aspects of family systems while others discuss more broadly the rise and fall of family systems past and present A main concern of this book is whether the family type in a society is ethno culturally determined and resistant to changes or created by socio economic conditions Such a comparison that includes Asian countries activates a new phase of the discussion on the stem family and family systems in a global perspective [Handbook of Marriage and the Family](#) Marvin B. marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

The Way We Really Are Stephanie Coontz, 2008-08-06 Stephanie Coontz the author of *The Way We Never Were* now turns her attention to the mythology that surrounds today's family the demonizing of untraditional family forms and marriage and parenting issues She argues that while it's not crazy to miss the more hopeful economic trends of the 1950s and 1960s few would want to go back to the gender roles and race relations of those years Mothers are going to remain in the workforce family diversity is here to stay

and the nuclear family can no longer handle all the responsibilities of elder care and childrearing Coontz gives a balanced account of how these changes affect families both positively and negatively but she rejects the notion that the new diversity is a sentence of doom Every family has distinctive resources and special vulnerabilities and there are ways to help each one build on its strengths and minimize its weaknesses The book provides a meticulously researched balanced account showing why a historically informed perspective on family life can be as much help to people in sorting through family issues as going into therapy and much more help than listening to today's political debates
