E Mavis Hetherington University of Virginia. This useful handbook brings together many of the most important new findings and provocative ideas about America's diverse and changing families. An excellent resource. Stephanie Coontz author of *The Way We Really Are* Coming to Terms with America's Changing Families. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future. The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H Ganong along with a multidisciplinary group of contributors critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion and families, racial and ethnic diversity, a feminist vision for families, older families and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing and human development. The Handbook of Contemporary Families is an excellent resource for advanced undergraduate and graduate students, researchers, educators and practitioners who study and work with families in several disciplines including Family Science, Human Development and Family Studies, Sociology, Marriage, Family Therapy and Social Work.

The Contemporary American Family Teresa Chandler Sabourin, 2003-04-07 I find the book extremely attractive The dialectical perspective provides a consistent avenue from which to address the diversity structural cultural developmental and functional in Contemporary American Families Whereas this perspective does not claim to solve the tensions in families it offers marvelous insights into the nature and changing diversities in families I believe this text is particularly well suited for reasonable discussion of serious issues and

provides valuable insights into the nature of families and their functioning Vince Bloom California State University Fresno

Teresa Chandler Sabourin invites students to appreciate the mystery complexity and diversity of the contemporary American family Resisting simplistic descriptions and normative descriptions Sabourin challenges us to open our minds and hearts to the rich humane variety of family connections as we search for ways to accommodate the competing demands and conflicting pressures experienced in our most cherished relationships Starting from the source of her own experience Sabourin addresses both the darker abusive side of family relationships as well as the lighter spiritual side of intimacy and love The Contemporary American Family successfully addresses the need for an accessible and teachable treatment of the dialectical perspective on close relationships This is a book that will encourage students of family communication to respect diversity question taken for granted assumptions and share the pain and joy and of their own family experiences Art Bochner University of South Florida Increasingly diverse in structure and culture contemporary families defy explanation by many traditional linear methods In order to understand the enormous impact that diversity has on the behaviors and relationships within the family scholars and students need a means to embrace rather than solve relational contradictions The Contemporary American Family A Dialectical Perspective on Communication and Relationships recognizes that families are both close and distant stable and changing amenable and uncontrollable Teresa Chandler Sabourin employs a dialectical approach acknowledging that a family's contradictions and relational tensions may be the determining factor in its interaction Writing in a direct and simple style Sabourin uses this innovative theoretical position to address four types of family diversity structural cultural developmental and functional Sure to stimulate discussion and further research this provocative volume examines The dialectic process in the context of family communication and relationships The redefined more inclusive American family Contemporary family structures Cultural diversity in the family Issues such as alcoholism domestic violence and divorce Spirituality within the family Designed as a supplemental text for upper level undergraduate and graduate courses in Family Communication The Contemporary American Family is also an invaluable resource for students in Family Studies and Women's Studies courses
