Contemporary Futures Sandra Wallman, 2003-12-16 *Contemporary Futures* explores the implications of visualising the future and the consequences this has on the present and on our relationship with other cultures *Anthropologies and Futures* Juan Francisco Salazar, Sarah Pink, Andrew Irving, Johannes Sjöberg, 2020-05-15 Anthropology has a critical practical role to play in contemporary debates about futures This game changing new book presents new ways of conceptualising how to engage with a future oriented research agenda demonstrating how anthropologists can approach futures both theoretically and practically and introducing a set of innovative research methods to tackle this field of research *Anthropology and Futures* brings together a group of leading scholars from across the world including Sarah Pink Rayna Rapp Faye Ginsburg and Paul Stoller Firmly grounded in ethnographic fieldwork experience the book's fifteen chapters traverse ethnographies with people living with HIV AIDS in Uganda disability activists in the U S young Muslim women in Copenhagen refugees in Milan future makers in Barcelona planning and land futures in the UK the design of workspaces in Melbourne rewilding in the French Pyrenees and speculative ethnographies among emerging communities in Antarctica Taking a strong interdisciplinary approach the authors respond to growing interest in the topic of futures in anthropology and beyond This ground breaking text is a call for more engaged interventional and applied anthropologies It is essential reading for students and researchers in anthropology sociology cultural studies design and research methods *Human Activities and the Tropical Rainforest* Bernard K. Maloney, 1998 Arising initially from a conference the papers published here have been integrated into book form to provide information on human activities and the tropical rainforest in the past and present and on the possible future of the rainforest in a unique way Other books have considered some but not all of these themes however none has stressed the continuity of change over time and its possible outcome for the people of the forest as well as for the forest itself Because of the approach taken this book should appeal across traditional disciplinary boundaries Indeed a prime aim has been to suggest that rainforest because of its complexity and the complexity of people rainforest relationships throughout time deserves study from a broad perspective This book poses more questions than answers about the rainforest and it is hoped that it will encourage readers to think about the rainforest in a wider way than hitherto This book is aimed at geographers physical and human social anthropologists archaeologists pedologists foresters and tropical botanists and will be of value to graduates of various disciplines setting out to research the rainforest *The Interview* Jonathan Skinner, 2014-01-29 What are new interview methods and practices in our new interview society and how do they relate to traditional social science research This volume interrogates the interview as understood used and under used by anthropologists It puts the interview itself in the hotseat by exploring the nature of the interview interview techniques and illustrative cases of interview use What is a successful and representative interview How are interviews best transcribed and integrated into our writing Is interview knowledge production safe ethical and representative And how are interviews used

by anthropologists in their ethnographic practice This important volume leads the reader from an initial scrutiny of the interview to interview techniques and illustrative case studies It is experimental innovative and covers in detail matters such as awkwardness silence and censorship in interviews that do not feature in general interview textbooks It will appeal to social scientists engaged in qualitative research methods in general and anthropology and sociology students using interviews in their research and writing in particular
