*Food and Nutrition* P. K. Newby,2018 From cleanses and raw veganism to the clean eating and paleo diets it seems that  
 every day there is news about some new super nutrient super diet or super food that promises to help us to be healthier  
 smarter happier fight disease lose weight or live longer Some of this information propels temporary food or diet fads some of  
 it is subsequently discredited and some becomes staid wisdom of healthy eating It structures the way we eat and consume  
 the research agendas of food scientists and the ways in which food companies market their products and therefore the ways  
 in which the global food system is built It also affects the environment food and animal ethics political and social movements  
 public policy and of course our health Food and Nutrition What Everyone Needs to Know RG looks at food systems globally  
 and historically to explain how food production diets and nutrition science have changed across time It will begin with  
 chapters on contemporary diets and nutritional problems food revolutions from the birth of agriculture to genetic food  
 technologies basic concepts in nutrition science food choices and the evolution of human taste preferences the politics of  
 food environments modern food production and its effects on human health and the environmental costs of food production  
 The book will then dive into the nutrition and ethics of animal based diets beverages plant based diets nutrition guidelines  
 and food labels and food technologies Ultimately this book provides an overview of the contemporary relationship between  
 humans land and food and explores the sustainability of consumption patterns on our health      **Fundamentals of**
