Contemporary Social Mobility C. James Richardson, 1977 Social Mobility in Contemporary Japan Hiroshi Ishida, 1995-01-05 The book is a study of intergenerational class mobility and the process of socioeconomic status attainment in contemporary Japan The idea of Japan as an educational credential society has been debated for a long time in Japan The book empirically evaluates this idea within the framework of a cross national comparison with the United States and Britain The author also examines the patterns of class mobility in Japan within a cross national perspective and reports similarities and differences in the mobility patterns among the three societies **Uneven Odds** Divya Vaid, 2018-04-17 Focussing on patterns of intergenerational stability this book traces the unequal structures of opportunity in India The author addresses questions and approaches towards social mobility or the lack thereof through interactions between social class caste and gender while adopting a rural urban perspective capturing changes over time and the implications of social mobility on a national scale This book plugs in crucial gaps in the research on social mobility which has been marked by the lack of precision regarding the extent of mobility in contemporary India Using a broad lens of both caste and class this up to date statistical analysis which uses national level datasets and advanced quantitative methods enriches the sociological as well as the anthropological literature while also locating India within the larger context of social mobility research in the industrialized and industrializing world **Social Mobility in Contemporary China** Zhongguo she hui ke xue yuan. Contemporary Social Work, 2003 **Social Mobility** Anthony Heath, Yaojun Li, 2024-02-12 Social mobility has long been one of the central topics of sociology It has been the subject of major theoretical contributions from the earliest generations of scholars as well as being of persistent political interest and concern Social mobility is frequently used as a key measure of fairness and social justice given the central role that modern liberal democracies give to equality of opportunity More pragmatically policymakers often consider it a force for economic growth and social integration However discussions of social mobility have increasingly become dominated by advanced statistical techniques impenetrable to all but specialists in quantitative methods In this concise and lucid book Anthony Heath and Yaojun Li cut through the technical literature to provide an eye opening account of the ideas debates and realities that surround this important social phenomenon Their book illuminates the major patterns and trends in rates of social mobility and their drivers in contemporary western and emerging societies ultimately enabling readers to understand and engage with this perennially relevant social issue

The Contemporary Review, 1917 **Contemporary Review**, 1904 **Being Brahmin, Being Modern** Ramesh Bairy, 2013-01-11 There is clearly an academic and political obsession with the idea of the Brahmin There is also simultaneously a near complete absence of engagement with the Brahmin as an embodied person or community This book addresses this intriguing paradox by making available a sociological description of the Brahmins in today's Karnataka It pursues three distinct yet enmeshed registers of inquiry the persona of the Brahmin embodied in the agency of the individual

Brahmin the organised complexes of action such as the caste association and the public culture of print and finally taking off from a longer yet modern and contemporary history of non Brahminical othering of the Brahmin It argues that we tend to understand the contemporaneity of caste almost exclusively within the twin registers of legitimation contestation and dominance resistance While these facets continue to be salient there is also a need to push out into hitherto neglected dimensions of caste The book focuses attention on the many lives of modern caste its secularisation the subject positions that it offers the equivocations by which persons and communities become subjects of caste their differential investments in the caste self
