Contempt And Pity Social Policy And The Image Of The Damaged Black Psyche 1880 1996:

Contempt and Pity Daryl Michael Scott, 2000-11-09 For over a century the idea that African Americans are psychologically damaged has played an important role in discussions of race In this provocative work Daryl Michael Scott argues that damage imagery has been the product of liberals and conservatives of racists and antiracists While racial conservatives often playing on white contempt for blacks have sought to use findings of black pathology to justify exclusionary policies racial liberals have used damage imagery primarily to promote policies of inclusion and rehabilitation In advancing his argument Scott challenges some long held beliefs about the history of damage imagery He rediscovers the liberal impulses behind Stanley Elkins's Sambo hypothesis and Daniel Patrick Moynihan's Negro Family and exposes the damage imagery in the work of Ralph Ellison the leading anti pathologist He also corrects the view that the Chicago School depicted blacks as pathological products of patriarchy New Negro experts such as Charles Johnson and E Franklin Frazier he says disdained sympathy seeking and refrained from exploring individual pathology Scott's reassessment of social science sheds new light on Brown v Board of Education revealing how experts reversed four decades of theory in order to represent segregation as inherently damaging to blacks In this controversial work Scott warns the Left of the dangers in their recent rediscovery of damage imagery in an age of conservative reform

Black Women, Cultural Images and Social Policy Julia S. Jordan-Zachery, 2009-01-13 *Black Women Cultural Images and Social Policy* offers a critical analysis of the policy making process Jordan Zachery demonstrates how social meanings surrounding the discourses on crime welfare and family policies produce and reproduce discursive practices that maintain gender and racial hierarchies Using critical discourse analysis CDA she analyzes the values and ideologies ensconced in the various images of black womanhood and their impact on policy formation This book provides exceptional insight into the racing gendering process of policy making to show how relations of power and forms of inequality are discursively constructed and impact the lives of African American women

Burdened Virtues Lisa Tessman, 2005-10-06 Lisa Tessman's *Burdened Virtues* is a deeply original and provocative work that engages questions central to feminist theory and practice from the perspective of Aristotelian ethics Focused primarily on selves who endure and resist oppression she addresses the ways in which devastating conditions confronted by these selves both limit and burden their moral goodness and affect their possibilities of flourishing She describes two different forms of moral trouble prevalent under oppression The first is that the oppressed self may be morally damaged prevented from developing or exercising some of the virtues the second is that the very conditions of oppression require the oppressed to develop a set of virtues that carry a moral cost to those who practice them traits that Tessman refers to as burdened virtues These virtues have the unusual feature of being disjoined from their bearer's own well being Tessman's work focuses on issues that have been missed by many feminist moral theories and her use of the virtue ethics framework brings feminist concerns more closely into contact with mainstream ethical theory This book will appeal to feminist theorists in philosophy and women's

studies but also more broadly ethicists and social theorists Feminists Doing Ethics Peggy DesAutels, Joanne Waugh, 2001-09-10 Feminists Doing Ethics is the debut title in the new Rowman Littlefield series Feminist Constructions In this thoughtful collection contributors refashion essays from the international conference on feminist ethics Feminist Ethics Revisited October 1999 with an aim to critique social practice and develop an ethics of universal justice The essays in this exciting volume explore the intricacies and impact of reasoned moral action the virtues of character and the empowering responsibility that morality generates Feminists Doing Ethics brings to light concepts and ideas that are intended to extend our understanding of morality and of ourselves Southern Studies, 2004 An interdisciplinary journal of the South
