## **Contentious Curricula Afrocentrism And Creationism In American Public Schools:**

*Contentious Curricula* Amy Binder, 2009-01-10 This book compares two challenges made to American public school curricula in the 1980s and 1990s It identifies striking similarities between proponents of Afrocentrism and creationism accounts for their differential outcomes and draws important conclusions for the study of culture organizations and social movements Amy Binder gives a brief history of both movements and then describes how their challenges played out in seven school districts Despite their very different constituencies inner city African American cultural essentialists and predominately white suburban Christian conservatives Afrocentrists and creationists had much in common Both made similar arguments about oppression and their children's well being both faced skepticism from educators about their factual claims and both mounted their challenges through bureaucratic channels In each case challenged school systems were ultimately able to minimize or reject challengers demands but the process varied by case and type of challenge Binder finds that Afrocentrists were more successful in advancing their cause than were creationists because they appeared to offer a solution to the real problem of urban school failure met with more administrative sympathy toward their complaints of historic exclusion sought to alter lower prestige curricula history not science and faced opponents who lacked a legal remedy comparable to the rule of church state separation invoked by creationism's opponents Binder's analysis yields several lessons for social movements research suggesting that researchers need to pay greater attention to how movements seek to influence bureaucratic decision making often from within It also demonstrates the benefits of examining discursive structural and institutional factors in concert

### **Evolution, Creationism, and the Battle to Control America's Classrooms**

Michael Berkman, Eric Plutzer, 2010-09-20 Who should decide what children are taught in school This question lies at the heart of the evolution creation wars that have become a regular feature of the US political landscape Ever since the 1925 Scopes monkey trial many have argued that the people should decide by majority rule and through political institutions others variously point to the federal courts educational experts or scientists as the ideal arbiter Berkman and Plutzer illuminate who really controls the nation's classrooms Based on their innovative survey of 926 high school biology teachers they show that the real power lies with individual educators who make critical decisions in their own classrooms Broad teacher discretion sometimes leads to excellent instruction in evolution But the authors also find evidence of strong creationist tendencies in America's public high schools More generally they find evidence of a systematic undermining of science and the scientific method in many classrooms

web ncert solutions for class 12 physics chapter 1 electric charges and fields topics and subtopics in ncert solutions for class 12 physics chapter 1 electric charges and fields section name topic name 1 electric charges and fields 1 1 introduction 1 2

**ncert solutions for class 12 physics chapter 1 electric charges** - Jan 14 2023

web ncert solutions for class 12 physics chapter 1 electric charges and fields  $g = 6.67 \times 10^{-11} \text{ N m}^2 \text{ kg}^{-2}$   $m_e = 9.1 \times 10^{-31} \text{ kg}$   $m_p$

$1.66 \times 10^{-27}$  kg putting the above values in the given ratio we get so the above ratio is the ratio of the electric force to the gravitational force between a proton and an electron when the distance between them is
