Contesting Globalization Space And Place In The World Economy:

Contesting Globalization André C. Drainville, 2004-07-31 Contesting Globalization makes an innovative and original addition to the literature on globalization examining the challenges faced by those wishing to develop progressive visions of transparent global governance and civil society This new study closely traces the history and development of the institutions of global governance The World Bank IMF WTO etc as well as the emergence of the anti globalization movement The author argues that we are at a unique moment where social forces have moved from national and international struggles to a global struggle and intervention in the world economy A series of case studies examine the ways in which cities have become contested sites for global struggles from the London dockworkers strikes of the nineteenth century to the recent demonstrations against the international financial institutions in Genoa Seattle and Washington *The Urban Wisdom of Jane Jacobs* Jane Jacobs, Sonia Hirt, Diane L. Zahm, 2012 Here for the first time is a thoroughly interdisciplinary and international examination of Jane Jacobs s legacy Divided into four parts I Jacobs Urban Philosopher II Jacobs Urban Economist II Jacobs Urban Sociologist and IV Jacobs Urban Designer the book evaluates the impact of Jacobs s writings and activism on the city the professions dedicated to city building and more generally on human thought Together the editors and contributors highlight the notion that Jacobs s influence goes beyond planning to philosophy economics sociology and design They set out to answer such questions as What explains Jacobs s lasting appeal and is it justified Where was she right and where was she wrong What were the most important themes she addressed And although Jacobs was best known for her work on cities is it correct to say that she was a much broader thinker a philosopher and that the key to her lasting legacy is precisely her exceptional breadth of thought **Frontiers of Globalization Research:** Ino Rossi, 2007-03-21 To bring this volume together the editor asked leading scholars in the field of globalization to outline a research framework that reflects their own approach to the subject The resulting book presents a broad spectrum of analytical approaches to globalization Theoretical reviews are complemented by substantive chapters and methodological analyses Contributors include scholars in the fields of sociology anthropology history and political science These writings have been organized into four sections theoretical perspectives and cultural globalization economic globalization political globalization and methodological approaches **Cities and Global Governance** Dr Mark Amen, Dr Noah J Toly, Professor Klaus Segbers, Professor Patricia L McCarney, 2013-03-28 Case study rich this volume advances our understanding of the significance of the city in global governance The editors call for innovation in international relations theory with case studies that add breadth to theorizing the role sub national political actors play in global affairs Each of the eight case studies demonstrates different intersections between the local and the global and how these intersections alter the conditions resulting from globalization processes The case studies do so by focusing on one of three sub themes the diverse ways in which cities and sub national regions impact nation state foreign policy the various dimensions of urban imbrications in global environmental politics or the multiple
