Contesting Visions Of The Lao Past:

Contesting Visions of the Lao Past Christopher E. Goscha, Søren Ivarsson, 2003 Laos's emergence as a modern nation state in the 20th century owed much to a complex interplay of internal and external forces. Arguing that the historiography of Laos needs to be understood in this wider context, this study considers how the Lao have written their own nationalist and revolutionary history on the inside while others, the French, Vietnamese, and Thais, have attempted to write the history of Laos from the outside for their own political ends. As nationalist historiography like the formation of the nation state does not emerge within a nationalist vacuum but rather is created and contested from inside and out, this incisive volume's approach has applications and implications far beyond Laos.

Culture and Customs of Laos Arne Kislenko, 2009-03-05 This all-encompassing volume offers a comprehensive look at the contemporary culture that defines this Southeast Asian country of Laos, examining everything from Buddhist traditions to Laotian cuisine. Coverage includes a brief history of the nation followed by in-depth narrative chapters on religion, literature, visual and performing arts, fashion, gender roles, everyday social customs, and more. Through illustrative descriptions of daily life, students will learn how traditional customs have shaped contemporary life in Laos today. Few other resources provide the same extensive coverage on current culture in Laos. Ideal for high school students as well as general readers, *Culture and Customs of Laos* is a must-have for all library shelves. The Southeast Asian country of Laos, one of the world's last standing communist nations, has often been overshadowed in the international newsroom by its more dominant neighbors, Thailand, Vietnam, and Cambodia. Among one of the most bombed countries in the world, one that suffered much during and after the Vietnam War, Laos has been struggling economically and politically for decades. In spite of these challenges, a rich, beautiful culture has survived in Laos. This exhaustive volume offers a comprehensive look at the contemporary culture that defines this seemingly quiet country, from Buddhism to Laotian cuisine. Coverage includes a brief history of the nation followed by in-depth narrative chapters on religion, literature, visual and performing arts, fashion, gender roles, everyday social customs, and more. Through illustrative descriptions of daily life, students will learn how traditional customs have shaped contemporary life in Laos today. Few other resources provide the same extensive coverage on current culture in Laos. Ideal for high school students as well as general readers, *Culture and Customs of Laos* is a must-have for all library shelves.

Creating Laos Søren Ivarsson, 2008 This book examines the process through which Laos came into existence under French colonial rule through to the end of World War II. Here, Laos's position at the intersection of two conflicting spatial layouts of Thailand and Indochina made its national form a particularly contested process. Rather than analyze this process in terms of administrative and political structures, the book discusses how a specific idea about a separate Lao space and its culture was formed.

Historical Dictionary of Laos Martin Stuart-Fox, Simon Creak, 2023-02-06 Laos has the smallest population, the weakest military, and despite rapid economic growth in recent years, one of the lowest levels of per capita income in mainland Southeast Asia. Yet a glance at the map

reveals its strategic location between China and Cambodia and Thailand and Vietnam As Laos was formerly a crossroads for trade routes the socialist government of the Lao People's Democratic Republic seeks to transform the country into a prosperous crossroads at the heart of this rapidly developing region Historical Dictionary of Laos Fourth Edition provides an in depth examination of one of the least known countries in Southeast Asia through a detailed chronology comprehensive introduction and extensive bibliography The dictionary section has more than 1 000 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book will be an excellent resource for students researchers and anyone wanting to know more about Laos Spirits of the Place John Clifford Holt, 2009-07-29 Spirits of the Place is a rare and timely contribution to our understanding of religious culture in Laos and Southeast Asia Most often studied as a part of Thai Vietnamese or Khmer history Laos remains a terra incognita to most Westerners and to many of the people living throughout Asia as well John Holt's new book brings this fascinating nation into focus With its overview of Lao Buddhism and analysis of how shifting political power from royalty to democracy to communism has impacted Lao religious culture the book offers an integrated account of the entwined political and religious history of Laos from the fourteenth century to the contemporary era Holt advances the provocative argument that common Lao knowledge of important aspects of Theravada Buddhist thought and practice has been heavily conditioned by an indigenous religious culture dominated by the veneration of phi spirits whose powers are thought to prevail over and within specific social and geographical domains The enduring influence of traditional spirit cults in Lao culture and society has brought about major changes in how the figure of the Buddha and the powers associated with Buddhist temples and reliquaries indeed how all ritual spaces and times have been understood by the Lao Despite vigorous attempts by Buddhist royalty French rationalists and most recently by communist ideologues to eliminate the worship of phi spirit cults have not been displaced they continue to persist and show no signs of abating Not only have the spirits resisted eradication but they have withstood synthesis subordination and transformation by Buddhist political and ecclesiastical powers Rather than reduce Buddhist religious culture to a set of simple commonalities Holt takes a comparative approach using his nearly thirty years experience with Sri Lanka to elucidate what is unique about Lao Buddhism This stimulating book invites students in the fields of the history of religion and Buddhist and Southeast Asian studies to take a fresh look at prevailing assumptions and perhaps reconsider the place of Buddhism in Laos and Southeast Asia Multidisciplinary Perspectives on Lao Studies Karen L. Adams, Thomas J. Hudak, 2010 **The Last Century of Lao Royalty** Grant Evans, 2009 Lao royalty's engagement in all the major events of the country in the last century forms a rich and complex narrative But with the 1975 Communist revolution this history fell into oblivion and has all but disappeared from public memory The Last Century of Lao Royalty recovers this history by presenting a wealth of rare documents and photographs They bring to life the political social and cultural activities of the members of the royal families and provide a unique perspective on the role of royalty in modern Laos

Royalty was in fact a force for moderation modernization and democracy during the period of the Royal Lao Government 1947-1975. The last king King Sisavang Vatthana for instance refused to give his imprimatur to a military dictatorship because he was so doggedly committed to constitutional rule. **The Journal of Burma Studies**, 2007 *Changing Way of Life of Ethnicities in the Mekong Region* Mekong Sub-region Social Research Center, 2014 **European Newsletter of Southeast Asian Studies**, 1998 Politics, Culture and Self Geir Helgesen, Søren Risbjerg Thomsen, 2006. Globalization may be undermining Kipling's assertion that East is East and West is West but arguably this is more in the realms of technological advances and consumer behavior than political culture. In the latter area much is still made of the contrasts between Eastern culture characterized by collectivism and belief in authority and Western culture characterized by individualism and belief in democracy. Such comfortable assumptions will be shattered by readers of *Politics Culture and Self*. This volume indeed confirms that differences between East Asia and northern Europe do exist. However it also points to major similarities e.g. regarding social harmony and the role of the family in society as well as significant contrasts mirrored within the two regions e.g. concerning interpersonal and institutional trust. **Chronicles of Chiang Khaeng** Volker Grabowsky, Rênū Wichāsin, 2008. *Chronicles of Chiang Khaeng* goes far beyond a mere annotated translation of four Lu chronicles. The polyglot co-authors Grabowsky and Wichasin take the annotations out of their meticulously researched footnotes of the translation proper and deftly integrate them into a history not only of a principality in northwestern Laos but a panorama of the jostlings for power among other Chiang and their respective Chao in the upper Mekong region. This geographic area outlines a cultural realm that shared Buddhist ethics and dhammic writing while also subscribing to the notion of hierarchy reinforced by demands for tribute, the display of regalia and pomp and the brutal armed removal of local populations in incessant wars over human resources. Myth and history merge in these chronicles which document sibling and spousal rivalries in networks of intermarriage and political alliances among the elite of the region. All of this was taking place at a time in history when the British and French arrived on the scene to engage China and newly emerging Siam in a mapping exercise that brought an end to centuries of regional rule by previously fairly autonomous city states. In this careful study Chiang Khaeng emerges as a paradigm of a Southeast Asian tributary state with more than one overlord. *Chronicles* is a model of translation skill and historical acumen at its finest. **Internationales Asien Forum**, 2009 **Far East and Australasia 2008** Europa Publications, Routledge Staff, 2007-11-15. A systematic survey of all the countries of East Asia South East Asia Australia New Zealand and the Pacific Islands. Essential for anyone with a professional interest in the region. Beyond the Green Myth Peter G. Sercombe, Bernard Sellato, 2007 Borneo with its tales of White Rajahs and tribes of headhunters has long excited the Western imagination Today however there is another green imagination at work Mention of the island is more likely to evoke images of tropical deforestation and concern about the cruel dispossession and displacement of indigenous peoples who once lived in relative harmony with their environment It is perhaps not surprising then that most books dealing with the nomadic hunter gatherers of Borneo have principally been pictorial studies There is indeed a dearth of scholarship regarding these peoples a situation that this first ever comprehensive review of nomadic groups in the Borneo rain forest aims to rectify Presenting a wealth of new research contributed by an international team of scholars the volume covers all of those parts of Borneo where nomads called Penan Punan or by various other names are or were known to exist and provides a comparative historical ecological study of these groups The study is primarily concerned with issues of modernization including the monetary economy formalized institutions centralized power structures contractual relationships and extraction activities and development policies The impact of these policies is analyzed with special regard to the natural environment inhabited by these small scale societies as well as the use of its resources The book has no stiff theoretical orientation but informs ongoing debates about changing forms of ethnicity relations between minorities and the state minorities rights and survival native discourse the sustainability of tropical forest use and the neo romantic environmentalist myth of so called wise traditional peoples

Figures of Southeast Asian Modernity Joshua Barker, Erik Harms, Johan A. Lindquist, 2014 This book is an innovative ethnographic work aimed at students and others interested in contemporary Southeast Asia Its made up of short essays or portraits of figures that populate the social and cultural world of contemporary Southeast Asia figure

The Power of Ideas Claudia Derichs, Thomas Heberer, 2006 This book brings a new approach to the study of political change in East and Southeast Asia and demonstrate the importance of political ideas behind policies and politics The traditional approach to studying the politics of a region is to focus on events personalities issues the mechanics of the political process What this volume looks to do is to step back and examine ideas and visions as well as those who articulate them and or put them into operation The contributors thus aim to conceptualize what discourse means for political change in East and Southeast Asia and how ideas in discourses affect political practice As well as theorizing on the roles of intellectuals ideas and discourses for processes of

democratization reform and change the chapters also offer deep insights into the national and local the general and the specific situation of the selected countries *Modern Short Fiction of Southeast Asia* Teri Shaffer Yamada, 2009 A CHOICE Outstanding Academic Title Modern Short Fiction of Southeast Asia surveys the historical and cultural significance of modern short fiction in nine Southeast Asian nations Laos Cambodia Myanmar Burma Singapore Malaysia Indonesia the Philippines Thailand and Vietnam Written in an accessible style without jargon this book will be of great interest to students of modern literature and general readers interested in Southeast Asia as well as scholars of East and South Asia who wish to compare the literary developments of those areas to Southeast Asia The interdisciplinary approach suggests that literature has made a significant contribution to the social and political history of the region and the authors address topics of significance to scholars of numerous disciplines including anthropology cultural studies history literature political science and sociology *Tai Lands and Thailand* Andrew Walker, 2009-07-13 Most current ethnographic work on the Tai world of mainland Southeast Asia associates community with tradition locality and subsistence economy This book challenges the view that community is a traditional social form being undermined by the modern forces of state incorporation market penetration and population mobility Using case studies from Thailand Laos Burma and China the collection explores the creation of modern community in contexts of economic and political transformation **Exploring Ethnic Diversity in Burma** Mikael Gravers, 2007 While the image of modern Myanmar Burma tends to be couched in human rights terms and especially of a heroic Aung San Suu Kyi opposing an oppressive military regime in reality there are several conflicts with ethnic and religious dimensions as well as political and ideological differences between the opposition and the ruling military regime This is not surprising in a country where 30% of the population and much of the land area are non Burman and where contradictory tendencies towards regional separatism versus unitary rule have divided the people since before independence In what is probably the most comprehensive study of Burma's ethnic minorities to date this volume discusses the historical formation of ethnic identity and its complexities in relation to British colonial rule as well as to the modern state the present situation of military rule and its policy of Myanmarification Changes of identity in exile and due to religious conversion are also analysed and discussed Finally the book deals with relevant and recent anthropological and sociological theoretical discussions on the ethnic identity boundaries and space of all the main ethnic groups in Burma It probes into the complexity and diversity of ethnicity in Burma and it provides more details and up to date information than previously collected in one volume
