Contesting Culture:

Contesting Culture Gerd Baumann, 1996-04-26 A vivid 1996 ethnographic account of an aspect of contemporary British life and a challenge to the conventional discourse of community studies *Contesting culture*, 1996 *Hybridizing Mission* Peter T. Lee, 2022-09-27 This qualitative study explores intercultural social dynamics among international Christian workers who are part of multicultural teams engaged in Christian ministries in a North African country It seeks to understand these workers lived realities at intersections of multiple cultural flows Ethnographic methods were used to collect and analyze data and forty nine international Christian workers were interviewed The findings of this study indicate that intercultural Christian workers go through complex intercultural social processes interwoven in the fabric of their everyday life These processes are mediated by their social experiences in the local North African context and their multicultural teams resulting in significant changes in their personal dispositions and social behaviors Based on these findings a working concept of diasporic habitus is developed and the practice of double discourses of culture is further examined This research suggests that some existing missiological concepts need to be revisited and recommends further interdisciplinary conversations involving cultural anthropology and sub fields in psychology about the changes that happen to people in intercultural missions It also calls for a reflexive approach to missiological research that incorporates awareness of one's situatedness and the lasting impact of historical entanglements on contemporary intercultural relations **Communication and Identity in the Diaspora** Christine L. Ogan, 2001-01-01 If my feet are in Amsterdam my head and heart are in Turkey This is the dilemma of the Turkish guestworkers in Christine Ogan's fascinating new work on the Netherlands' migrant population Ogan explores the explosive impact the Turkish media has had on this particular diasporic community as they struggle to adapt to life in the West and to redefine their personal and collective identity Never before have people who lived in adopted lands had such immediate and pervasive access to information and entertainment from their birth countries *Communication and Identity* documents how these newly available communication media have enabled migrants to maintain a connection with their ethnic culture a psychological comfort zone that minimizes estrangement from Turkey and exacerbates the separation from Dutch public life Not only a superb case study on how the Netherlands' Turkish community defines itself this remarkable book's message resonates across the wider European debate currently raging on immigration *Migrant Marginality* Philip Kretsedemas, Jorge Capetillo-Ponce, Glenn Jacobs, 2013-08-15 This edited book uses migrant marginality to problematize several different aspects of global migration It examines how many different societies have defined their national identities cultural values and terms of political membership through and in opposition to constructions of migrants and migration The book includes case studies from Western and Eastern Europe North America and the Caribbean It is organized into thematic sections that illustrate how different aspects of migrant marginality have unfolded across several national contexts The first section of the book examines the limitations of multicultural policies that have been used to incorporate migrants into the

host society The second section examines anti immigrant discourses and get tough enforcement practices that are geared toward excluding and removing criminalized aliens The third section examines some of the gendered dimensions of migrant marginality The fourth section examines the way that racially marginalized populations have engaged the politics of immigration constructing themselves as either migrants or natives The book offers researchers policy makers and students an appreciation for the various policy concerns ethical dilemmas and political and cultural antagonisms that must be engaged in order to properly understand the problem of migrant marginality
