*Integration of AI and OR Techniques in Constraint Programming for Combinatorial Optimization Problems* Roman Barták, 2005-05-20 This book constitutes the refereed proceedings of the Second International Conference on Integration of AI and OR Techniques in Constraint Programming for Combinatorial Optimization Problems CPAIOR 2005 held in Prague Czech Republic in May/June 2005. The 26 revised full papers published together with an invited paper and abstracts of 2 invited talks were carefully reviewed and selected from close to 100 submissions. Methodological and foundational issues from AI, OR, and algorithmics are presented as well as applications to the solution of combinatorial optimization problems in various fields.

*Enlightenment Contested* Jonathan I. Israel, 2006-10-12 Jonathan Israel presents the first major reassessment of the Western Enlightenment for a generation. Continuing the story he began in the best-selling *Radical Enlightenment* and now focusing his attention on the first half of the eighteenth century, he returns to the original sources to offer a groundbreaking new perspective on the nature and development of the most important currents in modern thought. Israel traces many of the core principles of Western modernity to their roots in the social, political, and philosophical ferment of this period: the primacy of reason, democracy, racial equality, feminism, religious toleration, sexual emancipation, and freedom of expression. He emphasizes the dual character of the Enlightenment and the bitter struggle between, on the one hand, a generally dominant anti-democratic mainstream supporting the monarchy, aristocracy, and ecclesiastical authority, and on the other, a largely repressed democratic, republican, and materialist radical fringe. He also contends that the supposedly separate French, British, German, Dutch, and Italian enlightenments interacted to such a degree that their study in isolation gives a hopelessly distorted picture. A work of dazzling and highly accessible scholarship, *Enlightenment Contested* will be the definitive reference point for historians, philosophers, and anyone engaged with this fascinating period of human development.

*A Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period to the Year 1820. (etc.)* Thomas Bayly Howell, 1822      *Cobbett's Complete Collection of State Trials and Proceedings for High Treason* Thomas Bayly Howell, Thomas Jones Howell, 1822      *A Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period to the Year 1783, with Notes and Other Illustrations*, 1822

*Hellenika I-II.3.10* Xenophon, 1989 The Peloponnesian War according to Thucydides was the result of the growth of Athenian power. Beginning with the battle of Abydos in 411, this edition covers the Ionian or Dekelean War, whose end in 404 also brings to a close the Peloponnesian War as a whole. The narrative is all the more valuable for the fact that Xenophon is likely to have been present at a number of the events described. In his very first sentence, he mentions a naval battle in which the Athenians are defeated, and in doing so, heralds their eventual defeat in the war. It is a tale of decline and of expansionism gone awry.
