**Continuity and Change in the Rhetoric of the Moral Majority** W David Snowball,1991-03-30 The persuasive strategies employed by the Moral Majority in the early 1980s reassured and calmed a segment of the American population left confused and uncertain by recent national events David Snowball analyzes this powerful movement how its rhetoric energized its supporters the positions it endorsed and causes it championed and its response to political and media critics By examining the fundamental messages the tactics used and the personalities involved the study reveals that while the basic message of the Moral Majority remained constant its changing popular image and maturing rhetoric which initially added momentum to its rapid rise may also have been at the root of its swift decline by the end of the decade While tracing the movement s origins Snowball investigates in depth the American people s reaction to the influence of the Moral Majority He subsequently reviews its founding tenets and the language typically used to encourage its disciples A look at the specific issues which polarized critics and followers exposes the reasons for the movement s collapse and poses questions regarding its future Although the primary focus of this study is the history of the Moral Majority the analysis also provides valuable insight into the nature of the American political system s response to religiously motivated movements in general

Contemporary Apocalyptic Rhetoric Barry Brummett,1991-11-30 Intellectuals today cringe when a politician speaks of the Second Coming the millennium or the Antichrist Certain questions naturally arise about those who literally expect the end of the world in our day Why do they think this Why do some people believe them How do their exhortations work to persuade an audience and to move that audience to actions and commitments These are the motivating questions of Contemporary Apocalyptic Rhetoric which describes apocalyptic as a rhetorical genre of discourse Barry Brummett first recasts insights drawn from past scholarly and theological studies to demonstrate their relevance to contemporary apocalyptic then examines a variety of real apocalyptic to illustrate the ways in which these rhetorical discourses actually work The discussion focuses on those strategies arguments and stylistic features that are peculiar to apocalyptic and that support its social and political claims Following an introductory first chapter Chapter Two describes how apocalyptic rhetoric links a psychological context to an esoteric grand order underlying all of time and the cosmos Chapter Three compares premillennial and postmillennial apocalyptic on three dimensions to show the different approaches they take to reach their audiences Chapter Four describes specific rhetorical techniques designed to maintain a mystic persona and urge social and political commitments on audiences The final two chapters apply the author s theories to secular and religious apocalyptic both premillennial Hal Lindsey and Ravi Batra and postmillennial Francis Fukuyama Contemporary Apocalyptic Rhetoric will appeal to readers across many disciplines including communications religion sociology and psychology      **Comprehensive Dissertation Index** ,1989      **The Religious Right** Glenn H. Utter,John W. Storey,1995-12 Compiles facts statistics and information on resources about the religious right in the US containing a chronology of the movement results of surveys of conservative Christian attitudes quotations from religious right leaders plus directories describing pro and anti religious right organizations Includes an annotated listing of print and nonprint works by and about the religious right and discussion of the influence of religion on society Of interest to students researchers and general readers Annotation copyright by Book News Inc Portland OR      **CCCC Bibliography of Composition and Rhetoric, 1991** Gail E. Hawisher,Cynthia L. Selfe,1993 The CCCC Bibliography of Composition and Rhetoric published for the Conference on College Composition and Communication offers teachers and researchers an annual classified listing of scholarship on written English and its teaching at the college level The 1991 volume lists and annotates 1 925 articles books dissertations and papers that with few

exceptions were published during the 1991 calendar year. A group of 171 contributing bibliographers prepared the citations and annotations for the entries appearing in this volume. The CCCC Bibliography includes an index of authors and editors, a subject index, and entries cross referenced according to subject matter. Considerably more comprehensive than other bibliographies in composition studies, the CCCC Bibliography of Composition and Rhetoric draws upon a large group of experts in the field to aid teachers and researchers in sorting through a vast body of interdisciplinary material, making their work easier and more effective. Annotations accompany all entries in this volume. They describe a publication's contents and are intended to help users determine its usefulness. Annotations are brief and insofar as the English language allows, are meant to be descriptive, not evaluative; they explain what an entry is about while leaving readers free to judge for themselves the work's merits. Most annotations serve one of three functions: they present the document's thesis, main argument, or major research finding; they describe the work's major organizational divisions; or they indicate the purpose or scope of the work. The subject index lists most of the topics discussed in the works cited in this volume. Consulting the Subject Index will help users locate sections and subsections containing large numbers of entries addressing the same topic. Each document is cited and annotated only once, under one of the five major sections of the CCCC Bibliography. Each entry, however, receives an entry number so that cross references to other sections are possible. This feature is especially useful because much scholarship in composition and rhetoric is interdisciplinary in nature. Cross references appear as a listing of entry numbers preceded by "See also" found at the end of each subsection. Entries appear under five major categories: bibliographies and checklists; theory and research; teacher education; administration and social roles; curriculum and testing; measurement and evaluation. Although the CCCC Bibliography excludes master's theses, textbooks, computer software, and book reviews from its coverage, it furnishes citations to review essays, articles appearing in some 220 journals, scholarly monographs, and essay collections; dissertations abstracted in Dissertation Abstracts International; and selected documents and conference materials available through ERIC.

**The Cumulative Book Index**, 1991. A world list of books in the English language. A Qualitative Analysis of the Jehovah's Witnesses. Daniel Cronn-Mills, 1999. Jehovah's Witnesses are possibly one of the most persecuted Christian organizations in the 20th century. How the Witnesses shape their response to persecution is invariably associated with the social reality they construct in their rhetorical practices. This is a descriptive analysis and interpretation of the social reality constructed by the discourse of the Jehovah Witnesses, utilizing a qualitative interpretive approach for exploration into a social reality. The purpose is to determine how the textual and contextual reality of Jehovah's Witnesses influences their lives and courses of action; how discursive practices are fundamental to their understanding of themselves and others. **The Anti-abortion Movement and the Rise of the Religious Right**. Dallas A. Blanchard, 1994. Sociologist and anthropologist Blanchard chronicles the evolution of the anti-abortion movement in the US from the modest efforts, mostly by priests and other Catholics, in the 1960s through the major liberalizing court decisions to the volatile and often violent protests of the

1990s He says the single most important development has been the merging of the movement with the conservative political ideology of cultural fundamentalism Paper edition unseen 14 95 Annotation copyright by Book News Inc Portland OR

Whillock, 1991-11-21 Most information about the role of political consultants in elections has been limited to analyses of the few major firms that manage presidential and major congressional contenders Political Empiricism shifts the focus of research to state and regional races examining the strategies and variables unique to the smaller political campaigns Rita Kirk Whillock describes how severe budgetary constraints inexperienced campaign staffs and extremely limited voter research change the face of political campaigns on the state and local levels Each chapter of this volume presents a mixture of the theoretical and the practical providing a link between current scholarship and real campaign strategies The volume s case study approach explores key issues and concerns of political communication including incumbency image gender fundraising advertising and message strategies Political Empiricism stands as a significant scholarly account that balances the existing bias toward analyses of national campaign strategies and helps close the gap between communications practice and theory Highly recommended for scholars and students of political communication and political science

*Mediated Politics in Two Cultures* Lynda Kaid, Jacques Gerstle, Keith R. Sanders, 1991-09-30 This first comparative study of the political communication processes in the United States and France brings together researchers from both countries to examine differences and similarities between the media s involvement in each nation s 1988 presidential election campaign The book analyzes the construction of mediated political reality in the two countries and concludes that French media do not concentrate more on policy issues than do American media The authors discuss television news and newsmagazine coverage of the overall campaigns and their particular political debates television commercials and broadcasts and political posters Also assessed are the interactions between party candidate presentations of political reality and voter interpretations of that reality The contributions are grouped into four sections Comparing Politics in Two Cultures which includes discussions of constructing a political communication project and the theoretical dimensions of the studies Mediated Campaign Messages which contains analyses of reality construction political advertising and political broadcasts Media Coverage of the Campaigns and Implications of Mediated Campaigning which covers the effects of television broadcasts on voter perception and possibilities for improving the electoral process This work is a useful resource for students scholars and politicians interested in political communication and comparative politics as well as for journalists and members of the media
