Contours Of Psychiatric Justice:

The Contours of Psychiatric Justice Bruce A. Arrigo, 1996 Twenty nine collected essays represent a critical history of Shakespeare's play as text and as theater beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991 The criticism centers on three aspects of the play the love friendship debate

Psychological Jurisprudence Bruce A. Arrigo, 2012-02-01 Psychological jurisprudence or the use of psychology in the legal realm relies on theories and methods of criminal justice and mental health to make decisions about intervention policy and programming While the intentions behind the law psychology field are humane the results often are not This book provides a radical agenda for psychological jurisprudence one that relies on the insights of literary criticism psychoanalysis feminist theory political economy analysis postmodernism and related strains of critical thought Contributors reveal the roots of psycholegal logic and demonstrate how citizen justice and structural reform are displaced by so called science and facts A number of complex issues in the law psychology field are addressed including forensic mental health decision making parricide competency to stand trial adolescent identity development penal punitiveness and offender rehabilitation In exploring how the current resolution to these and related controversies fail to promote the dignity or empowerment of persons with mental illness this book suggests how the law psychology field can meaningfully contribute to advancing the goals of justice and humanism in psycholegal theory research and policy

The French Connection in Criminology Bruce A. Arrigo, Dragan Milovanovic, Robert Carl Schehr, 2012-02-01 Winner of the 2005 Outstanding Book Award presented by the Crime and Juvenile Delinquency Division of the Society for the Study of Social Problems This is the first comprehensive accessible and integrative overview of postmodernism's contribution to law criminology and social justice The book begins by reviewing the major contributions of eleven prominent figures responsible for the development of French postmodern social theory This first wave includes Roland Barthes Jean Baudrillard H l ne Cixous Gilles Deleuze Jacques Derrida Michel Foucault F l ix Guattari Luce Irigaray Julia Kristeva Jacques Lacan and Jean Fran ois Lyotard Their respective insights are then linked to second wave scholars who have appropriated their conceptualizations and applied them to pressing issues in law crime and social justice research Compelling and concrete examples are provided for how affirmative and integrative postmodern inquiry can function meaningfully in the world of criminal justice Topics explored include confinement law and prison resistance critical race theory and a jurisprudence of color media literary studies and feminism restorative justice and victim offender mediation processes and the emergence of social movements including innocence projects and intentional communities

Forensic Psychology Reconsidered David Polizzi, Matthew Draper, 2015-10-30 Forensic psychology is where psychology meets the criminal justice system An understanding of the intersection of criminal law and psychological issues relating to criminal responsibility is critical for criminal justice students This accessible text focuses on the criminal law implications of forensic psychology as it relates to topics such as competency to stand trial state of mind at the time of the

crime suicide by cop and involuntary psychiatric medication administered in custody Unlike more traditional texts on this topic which are primarily concerned with the clinical practice of forensic psychology this book focuses on critical thinking as it relates to these topics Each chapter presents a critical analysis of the topic under study going beyond merely identifying the legal parameters of criminal responsibility to explore the ethical philosophical and theoretical foundations of that concept

Competency to be Tried, Imprisoned, and Executed Jane Moriarty, 2013-12-19 Whether the accused is competent to stand trial whether the plaintiff is competent to accuse or whether a witness is competent to testify has had a long legal history Such questions draw legal reasoning into areas of ethical reflection and scientific debate deeply rooted in the moral history of the United States Mental competence has come to play a central and controversial role in proving guilt and in evaluating the severity of a crime and its corresponding punishment This compendium brings together the major legal precedents and legal commentaries that have defined the role of mental illness in criminal trials throughout U S history The reprint collection considers among other issues the evolution of the Supreme Court's position on the insanity defense and mental retardation how these affect one's competency to stand trial or be executed and how these affect culpability and punishment Each volume begins with an introductory essay and includes both cases and commentary Scholars as well as students will find these volumes a useful research tool

The Myth of a Psychiatric Crime Wave Corey J. Vitello, Eric W. Hickey, 2006 The media is full of disturbing scenes of deranged psychotic killers lurking around every corner waiting to attack when innocent victims least expect Despite the unrealistic nature of these scenes the ensuing fear results in very real often shortsighted attempts at protecting the public from the perceived danger that mentally ill persons in our communities represent The Myth of a Psychiatric Crime Wave provides a practical foundation for studying popular attitudes toward mental illness and the effects these notions have on mental health consumers Additionally the text provides a comprehensive analysis of the underlying assumptions about mental illness that unintentionally or otherwise influence legal and policy decisions affecting persons with mental illnesses This book begins with an exploration of the various psychological and legal efforts to define the concept of mental illness The text then examines the myth of a psychiatric crime wave the common belief that mentally ill persons are violent and dangerous and as such are managed effectively through criminal justice procedures The criminal image of persons with mental illness is addressed then leads the reader to an empirical analysis of mock juror sentencing recommendations for mentally ill defendants The Myth of a Psychiatric Crime Wave is an effective complementary text for upper level psychology and criminal justice courses dealing with the treatment of mental health consumers the management of these individuals or both Moreover this text is suited for sparking critical discourse in graduate level courses in forensic psychology criminology and mental health law This book is part of the Criminal Justice and Psychology series

Criminal Competency on Trial Mark C. Bardwell, Bruce A. Arrigo, 2002 Criminal Competency on Trial examines the legal standards by which one can stand trial and the psychological instruments by which one's mental health status is

assessed Acknowledging that determinations of trial fitness represent the most significant mental health inquiry pursued in the system of criminal law today this book carefully explains and thoroughly reviews the legal and psychological limits of competency to stand trial CST To highlight these limits authors Bardwell and Arrigo systematically investigate the controversial and high profile case of Colin Ferguson Mr Ferguson was identified as the New York City railway killer who following a competency finding elected to represent himself and was found guilty of all criminal charges The text proposes a series of clear practical and concise justice policy reforms designed to improve how the CST doctrine is understood and employed by lawyers judges psychologists and other forensic mental health professionals The book concludes by demonstrating where and how these policy recommendations would substantially change the application of the CST doctrine especially in the case of Colin Ferguson and with other high stakes defendants including that of Theodore Kaczynski a.k.a. the una bomber *Bowker's Law Books and Serials in Print*, 1998 Seattle University Law Review, 2000 **Integrative**

Criminology Gregg Barak, 1998 The essays collected together in this volume explore a development in criminology the emerging paradigm of integrative study The integrative wave covers both mainstream and critical criminologies and is part of a larger and emerging paradigm of interdisciplinarity that transcends East West and North South relations This book is essentially devoted to the value and practice of interdisciplinary criminology The contributions aim to represent the full array of integrative thinking and analysis and are divided into five parts **Critical Criminology at the Edge** Dragan

Milovanovic, 2002-07-30 This study introduces key emerging perspectives in postmodern analysis and discusses how they might be integrated synthesized and applied in criminology law and social justice Milovanovic first familiarizes readers with discourse analysis Lacanian chaos theory catastrophe theory and edgework theory Next he covers various practical applications through literature and film in client lawyer practices etc These new critical perspectives will be invaluable tools for scholars in law criminology criminal justice sociology and law enforcement These theories shed light on how nonmaterially motivated forms of crime those that provide adrenalin rushes or excitement can be understood They help to explain the development of sudden forms of violence such as criminal acts by disgruntled workers as well as how mediation practices can curtail such escalating violence Milovanovic also demonstrates how constitutive theorizing can serve as an umbrella integrative theory which provides sufficient space for various syntheses A case in point is how edgework theory adrenalin rush excitement visceral experiences can be understood in criminology and in the establishment of social justice

Conscience, Consensus, & Crossroads in Law Roberta Kvelson, 1995 This book explores from selected semioticians international and cross cultural viewpoints the changing concepts of custom and community The idea of the primitive as a complex social system is explored in the context of recent studies of comparative law The range of focus is from Lockean majority rule to aboriginal self determination and includes a new look at waning ideologies such as the old feminism Critical Legal Studies and postmodernisms Pragmatism is reinterpreted and reviewed with fresh eyes **Current Publications in**

Legal and Related Fields, 1997 The Power Serial Rapist Dawn J. Graney, Bruce A. Encyclopedia of American Civil Rights and Liberties Otis H. Stephens, John M. Scheb II, Kara Elizabeth Stooksbury, 1997 *For the Common Good* R. Robin Miller, Sandra Lee Browning, 2004 The passing of the Patriot Act in 2001 brought the tension between individual citizen's rights and governmental control to the forefront of American political discourse It seems that the state by claiming that they are increasing our collective security is in actuality operating against the common good More than anything else recent events highlight the need for texts such as *For the Common Good* This book is the culmination of research that investigated such topics as race class gender and sexuality violence and victimization prostitution employee drug testing hate speech legislation women processed by the criminal justice system the war on drugs and the war on crime All the pieces come from a critical perspective and some of them are written from a Marxian perspective All of the papers on the volume rely at least tacitly on the notions that reality is constructed deviance is created by the normative order and that the power that some groups have over that of others lies at the heart of societal social control A key point of strength in this anthology is the methodological nature of the papers included Most of the pieces are based on original research using various methodologies Several theoretical pieces such as Bruce Arrigo's *Law Crime and Social Control Making Sense of Conflict Radical and Postmodern Criminology* and Andrew Taslitz's *The Jury and the Common Good Synthesizing the Insights of Modern and Postmodern Legal Theories* are included ensuring a more balanced approach The cross disciplinary nature of the work included here is a further advantage of this text The papers in *For the Common Good* include works by professionals from the fields of sociology criminology criminal justice public policy studies psychology and law And because nothing is as separate as two mounds of expertise efforts to bridge disciplinary gaps are critical Finally given our volatile political times where personal rights and freedoms are weighed against national security and found wanting on nearly a daily basis a rearticulation

and further emphasis on a critical examination of law and social control appears urgent Editors Miller and Browning seek to respond to this need Humanity & Society ,2000 **Philosophy, Crime, and Criminology** Bruce A. Arrigo,Christopher R. Williams,2006-03-24 In this examination of the philosophical foundations of crime in Western culture the authors combine theoretical chapters with those centred on application and case study They develop an accessible and insightful approach to philosophical criminology in step with the challenges of the 21st century **Punishment** Christine T. Sistare,1996 Punishment Social Control and Coercion is a collection of essays which address the history present meaning and prospective implications of legal punishment at the millennium The authors draw on expertise in various fields including philosophy psychology semiotics sociology criminology feminist theory and law The essays range in focus from discussion of justificatory theories to normative analyses of specific problems in penal practice to postmodern critiques of both theory and practice The insights provided and questions raised in these timely essays are of particular interest in light of current debates about increasing reliance on penal responses to social concerns **Contemporary Issues in Mental Health** Leslie T. Foster,James André LeClair,2007 The social and economic burden of mental illness is considerable and within the Western world such problems appear to have increased in recent years This volume examines a variety of issues related to mental health from the perspective of contemporary research policy and practice
