Contours of Culture Robbie B.H. Goh, 2005-03-01 This volume discusses the urban history and cultural landscape of Singapore in relation to theories of textual dialogics multiculturalism and the cultural and political unconscious Multidisciplinary in approach it takes as its data not only government policy and official discourses and the more quantitative elements of population census information on religion income race and nationality but also a wide range of related cultural discourses in film literature media texts social behaviour and other interventions and interpretations of the city The main parameters of Singapore's socio national construction public housing social elitism racial and linguistic plurality and their management colonial remnants and their transformation are explained and analysed in terms of Singapore's colonial past its rapid modernization and its current push to compete as a global city and tourist destination This multidisciplinary book should be of interest to a correspondingly wide readership including architects and urban planners political scientists cultural analysts and theorists colonial discourse scholars urban geographers and sociologists Asian studies specialists graduate and undergraduate students in the above areas and a general readership interested in cities and cultures This is a remarkable book By taking a series of readings of Singapore's urban culture it chronicles the emergence of a new city form which through the coming together of quite particular narratives of modernity nationhood and identity may well be providing a much more general spatial model for Asian cities Simultaneously it provides a gripping account of how to read the possibilities and tensions that this model throws up Nigel J Thrift Oxford University Goh's theoretically sophisticated and creative analysis of Singapore's society space and culture and his brilliant critique of the city's official policies of self representation is a marvellous tour de force An astute urban semiotician and interpreter of cultural signs Goh draws on films figures and fiction to provide a fascinating reading of a city preparing for global competition Questions of ethnicity class sexuality national identity architecture and space are brought together in an imaginative as well as provocative exercise of symbolic explication and analysis Essential for studies of Asian urbanism and a model for students of the so called global city Anthony King State University of New York at Binghamton In *Contours of Culture* Robbie Goh has achieved what many specialists in cultural studies have attempted only metaphorically by successfully fusing the materiality of spatiality with the symbolic realm of cultural processes The result is an absorbing and nuanced interpretation of the meaning of the landscapes of Singapore where space serves as a text that reflects and reproduces the political cultures of a global city in a state of constant re invention David Ley University of British Columbia Canada [Contours of Culture](#) Paul Atkinson, Sara Delamont, William Housley, 2008 In *Contours of Culture* the authors discuss the uses of various ethnographic methods in the study of culture drawing on their field research with an opera company Welsh artists and classes on the popular Brazilian martial art capoeira In their practical research and in the research of other scholars they encounter complex problems and themes that often require new ways of organizing and conceiving cultural material and even new ways of giving expression to

phenomena that are only partially understood This book is not only about the inherent complexities involved in ethnography it is also about the kinds of opportunities available to researchers immersed in this complexity and how they might grasp cultural settings in their entirety How Topographic Maps are Made Tennessee Valley Authority. from an understanding of humankind as one entity without requiring us to re design cultures to fit on with some sort of global template Answers can be gained by deploying shared characteristics of humans as well as pan cultural commonalities This book offers an anthropologically informed foundation for addressing pertinent questions of intercultural exchange **A**
