Ed. by Richard Peters** , 1855 **The Hague Court Reports [1st]- 2nd Series** Permanent Court of Arbitration, 1916 **Corrupt Circles** Alfonso W. Quiroz, 2008-11-10 The pervasiveness of corruption has been aided by the readiness of both Peruvians and the international community to turn a blind eye **The Hague Court Reports[1st]-2d Series** Permanent Court of Arbitration, 1916 The Political Economy Of Smuggling Lance Grahn, 1997-04-03 For review see Anthony McFarlane in The American Historical Review vol 103 nr 4 October 1998 p 1368 1369 **Polycentric Monarchies** Pedro Cardim, 2012 Having succeeded in establishing themselves in Europe Asia Africa and the Americas in the early 16th century Spain and Portugal became the first imperial powers on a worldwide scale Between 1580 and 1640 when these two entities were united they achieved an almost global hegemony constituting the largest political force in Europe and abroad Although they lost their political primacy in the seventeenth century both monarchies survived and were able to enjoy a relative success until the early 19th century The aim of this collection is to answer the question how and why their cultural and political legacies persist to date Part I focuses on the construction of the

monarchy examining the ways different territories integrated in the imperial network mainly by inquiring to what extent local political elites maintained their autonomy and to what a degree they shared power with the royal administration Part II deals primarily with the circulation of ideas models and people observing them as they move in space but also as they coincide in the court which was a veritable melting pot in which the various administrations that served the Kings and the various territories belonging to the monarchy developed their own identities fought for recognition and for what they considered their proper place in the global hierarchy Part III explains the forms of dependence and symbiosis established with other European powers such as Genoa and the United Provinces Attempting to reorient the politics of these states political and financial co dependence often led to bad economic choices The Editors and Contributors discard the portrayal of the Iberian monarchies as the accumulation of many bilateral relations arranged in a radial pattern arguing that these political entities were polycentric that is to say they allowed for the existence of many different centres which interacted and thus participated in the making of empire The resulting political structure was complex and unstable albeit with a general adhesion to a discourse of loyalty to King and religion
