The Contrarian's Guide to Leadership

by Steven B. Sample

A summary of the original text.

If you want ordinary results in your business, you might succeed with the conventional approach to leadership. But if you want truly exceptional results — high employee morale and loyalty, lower costs, and record profits — you need to take a *contrarian* view.

Contrarian leadership is based on the following seven principles:

1. Think gray.
2. Think free.
3. Listen artfully.
4. Use experts without letting them use you.
5. Put off making decisions, and delegate as many of them as possible.
6. Know which hill you're willing to die on.
7. Work for those who work for you.

In this summary, we'll discuss how you can use each of these principles to improve

your effectiveness as a leader.

THINKING GRAY AND THINKING FREE

Contrarian leaders think differently from the people around them. In particular, such leaders are able to maintain their intellectual independence by *thinking gray*, and they enhance their intellectual creativity by *thinking free*.

Conventional wisdom considers it a valuable skill to be able to make judgments as quickly as possible. But contrarian wisdom argues that, for leaders, judgments about the truth of information or the merits of new ideas should be arrived at as slowly as possible, and in many cases not at all.

Instead of leaping to a conclusion, often the smartest thing that you can do is to **think gray**. Thinking gray is an extraordinarily uncommon characteristic that requires a good deal of effort
