This study explores and applies the approach to written English and Shona of Shona native speakers in Zimbabwe. It is both theoretical and practical, highlighting the importance of multi-dimensional and non-evaluative analytical frameworks and providing information for second language teachers and learners.

The Palgrave Handbook of Language and Crisis Communication in Sub-Saharan Africa Ernest Jakaza, Hugh Mangeya, Isaac Mhute, 2024-06-17 This handbook provides a detailed and sustained examination of the scope, purpose and practical application of crisis and disaster management communication in this critical region of the African continent: sub-Saharan Africa (SSA). The volume lays the foundation that enables a nuanced appreciation of two significant issues. The first pertains to SSA's vulnerability to both natural and man-made phenomena. Secondly, it argues that communication plays a critical role in so far as the identification, social construction, raising awareness, preparation, mitigation and eradication of crises and disasters in the region. Communication plays a critical role in potentially reducing the impacts of crises and disasters before their occurrence. This handbook is a key resource for academics, students and practitioners in areas such as political communication, media communication, language and communication, brand communication, social/digital media communication and crisis communication among others.
