## **Contributions To Folkloristics:**

*Contributions to Folkloristics* William Russell Bascom, 1981      **International Folkloristics** Alan Dundes, 1999  
International folkloristics is a worldwide discipline in which scholars study various forms of folklore ranging from myth folktale and legend to custom and belief Twenty classic essays beginning with a piece by Jacob Grimm reveal the evolving theoretical underpinnings of folkloristics from its nineteenth century origins to its academic coming of age in the twentieth century Each piece is prefaced by extensive editorial introductions placing them in a historical and intellectual context The twenty essays presented here including several never published previously in English will be required reading for any serious student of folklore      *American Folklore Scholarship* Rosemary Levy Zumwalt, 1988-06-22 American Folklore Scholarship is rich reading outlining the intellectual genealogy of American folklore and delivering many interesting historical tidbits Folklore teachers will want to use this book in their introductory theory classes while doctoral students will want to memorize the book before their qualifying exams Folklore Forum a welcome overview of the discipline in North America and the practitioners who established it American Anthropologist In this classic text Zumwalt examines the split between literary folklorists and anthropological folklorists The former looked at literary forms for folklore the latter looked at the life and unwritten culture of the people This struggle shaped the study of folklore in the U S      Vladimir Propp Catherine Krylova Gordis, 1987      Folktales of Newfoundland Pbdirect J.D.A. Widdowson, Herbert Halpert, 2015-02-20 This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province The intention was to collect as broad a spectrum of traditional material as possible and Folktales of Newfoundland is notable not only for the number and quality of its narratives but also for the format in which they are presented A special transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator's language In addition Newfoundland has preserved many aspects of English and Irish folk tradition some of which are no longer active in the countries of their origin Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland the researchers set out to discover if this was in fact the case
