Control Crisis In Colonial Kenya The Dialectic Of Domination Eastern African Studies:

Control & Crisis in Colonial Kenya Bruce Berman, 1990 *Transformative Constitutionalism and Kenya* Gautam Bhatia, 2025-06-10

A key book about rights separation of powers and the State which assesses a decade and a half of transformative constitutionalism in Kenya through the lens of landmark constitutional judgments discussing their international import and suggesting new pathways towards democratic constitutionalism. In 2010, after more than two decades of struggle, Kenya's new Constitution was born. Widely accepted to be transformative in nature in the decade and a half since it was enacted, the Constitution has been at the centre of national discourse. And in that time, the country's courts have been confronted with crucial and high stakes constitutional disputes which are both distinctively Kenyan in nature but also are disputes that have long been common to constitutional democracies around the world. They include issues around constitutional change, federalism, imperial presidencies, the role of the legislature, election disputes, land rights and horizontality among others. Drawing comparisons with constitutional jurisdictions globally which often rely upon precedent from each other's jurisdictions, this book examines transformative constitutionalism under the 2010 Constitution and shows that while Kenyan courts have been informed by and been in conversation with global precedent, they have crafted unique and particular solutions. The book excavates the engagement of Kenyan Courts with the 2010 Kenyan Constitution to highlight the unique and innovative contributions that Kenyan courts have made to global constitutional problems and to suggest pathways for the future. Showcasing the jurisprudence of the courts in action, this book discusses how and when the power to amend a constitution can be limited or constrained and how constitutional change can be insulated from political interference. It examines issues of parliamentarianism and devolution in the context of the national controversy around constituency development funds and reveals how Kenya provides a model for understanding constitutional separation of powers. It looks at the process for challenging presidential elections and details how the Supreme Court has aimed to set out clear legal and evidentiary standards for how a court ought to deal with a pure political dispute, something with which judiciaries around the world have struggled. It explores the evolution of socio-economic rights including the right to housing, non-discrimination and equality before the law, as well as the question of how transformative constitutionalism interrogates private power. Placing contemporary Kenyan constitutionalism at its heart, this work of comparative constitutional law asks what the ongoing global constitutional conversation can learn from the Kenyan experience under its new order. Jurisdictions globally which often rely upon precedent from each other's jurisdictions, this book examines transformative constitutionalism under the 2010 Constitution and shows that while Kenyan courts have been informed by and been in conversation with global precedent, they have crafted unique and particular solutions. The Experiment Must Continue Melissa Graboyes, 2015-11-09 The Experiment Must Continue is a beautifully articulated ethnographic history of medical experimentation in East Africa from 1940 through 2014 In it Melissa Graboyes combines her training in public health and in history to treat her subject with the dual sensitivities of a medical ethicist and a fine historian She breathes life into the fascinating histories of research on human subjects elucidating the hopes of the interventionists and the experiences of the putative beneficiaries Historical case studies highlight failed attempts to eliminate tropical diseases while modern examples delve into ongoing malaria and HIV AIDS research

Collectively these show how East Africans have perceived research differently than researchers do and that the active participation of subjects led to the creation of a hybrid ethical form By writing an ethnography of the past and a history of the present Graboyes casts medical experimentation in a new light and makes the resounding case that we must readjust our dominant ideas of consent participation and exploitation With global implications this lively book is as relevant for scholars as it is for anyone invested in the place of medicine in society

Indigenous Systems, Colonialism, Colonial Legacies, and Africa's Economic Challenges Stephen Onyango Ouma, 2025-08-20 This book is an exploration of Africa's enduring struggles and immense potential It examines the historical roots of Africa's socio-economic challenges from the disruption of indigenous systems to the lasting effects of colonialism and neo-colonialism By blending African philosophical perspectives with incisive critiques of globalization and governance it provides a fresh and compelling analysis of the continent's path toward true sovereignty and sustainable development Rich with historical depth and philosophical insight this work challenges conventional narratives about African development and offers innovative strategies for breaking free from dependency on global capitalist systems With its interdisciplinary approach and forward-looking solutions this book is an essential resource for scholars policymakers and anyone invested in Africa's transformation

From Historical to Critical Post-Colonial Theology Robert S Heaney, 2016-05-26 What is post-colonial theology How does it relate to theology that emerged in historically colonial situations These are two questions that get to the heart of Robert S Heaney's work as he considers the extent to which theologians predating the emergence of post-colonial theology might be considered as precursors to this theological movement Heaney argues that the work of innovative theologians John S Mbiti and Jesse N K Mugambi important in their own right must now also be considered in relation to the continued emergence of post-colonial theology When this is done fresh perspectives on both the nature of post-colonial theology and contextual theology emerge Through a sympathetic and critical reading of Mbiti and Mugambi Heaney offers a series of constructive moves that counter the ongoing temptation toward acontextualism that continues to haunt theology both in the North and in the South

Race, Resistance, and the Boy Scout Movement in British Colonial Africa Timothy H. Parsons, 2004-11-01 Conceived by General Sir Robert Baden Powell as a way to reduce class tensions in Edwardian Britain scouting evolved into an international youth movement It offered a vision of romantic outdoor life as a cure for disruption caused by industrialization and urbanization Scouting's global spread was due to its success in attaching itself to institutions of authority As a result scouting has become embroiled in controversies in the civil rights struggle in the American South in nationalist resistance movements in India and in the contemporary American debate over gay rights In *Race Resistance and the Boy Scout Movement in British Colonial Africa* Timothy Parsons uses scouting as an analytical tool

to explore the tensions in colonial society Introduced by British officials to strengthen their rule the movement targeted the students juvenile delinquents and urban migrants who threatened the social stability of the regime Yet Africans themselves used scouting to claim the rights of full imperial citizenship They invoked the Fourth Scout Law which declared that a scout was a brother to every other scout to challenge racial discrimination Parsons shows that African scouting was both an instrument of colonial authority and a subversive challenge to the legitimacy of the British Empire His study of African scouting demonstrates the implications and far reaching consequences of colonial authority in all its guises *The*
