Producing and Directing the Short Film and Video David K. Irving, Peter W. Rea, 2013-03-20 Producing and Directing the Short Film and Video is the definitive book on the subject for beginning filmmakers and students. The book clearly illustrates all of the steps involved in preproduction, production, postproduction, and distribution. Its unique two-fold approach looks at filmmaking from the perspectives of both producer and director and explains how their separate energies must combine to create a successful short film or video from script to final product. This guide offers extensive examples from award-winning shorts and includes insightful quotes from the filmmakers themselves describing the problems they encountered and how they solved them. The companion website contains useful forms and information on grants and financing sources, distributors, film and video festivals, film schools, internet sources for short works, and professional associations.

Dark Beyond Darkness James G. Blight, Janet M. Lang, 2017-12-22 In *Dark Beyond Darkness*, James Blight and Janet Lang, among the world's foremost authorities on the Cuban missile crisis, synthesize the findings from their thirty-year project on the most dangerous moment in recorded history. Authoritative, accessible, and written with their usual flair and wit, *DBD* is the first book to take readers deeply inside the experience and calculations of Fidel Castro, who was willing to martyr Cuba if his new Russian ally would nuke the U.S. and destroy it. Blight and Lang have established that in October 1962, the world was on the brink of Armageddon and that we escaped by luck. Their history is scary but unimpeachably accurate; we just barely escaped the cold and the dark in October 1962. Their history also comes with a warning: we are currently at risk, not only of Armageddon, fast in a war between superpowers, but Armageddon in Slow Motion, the result of a climate catastrophe following a regional nuclear war and from Armageddon. Oops, a conflict sparked by an accident which is misinterpreted and ends in nuclear war. Drawing on the insights of poets, musicians, and novelists as well as climate scientists and agronomists, they show the terrible risk we run by refusing to abolish nuclear weapons.
