Williams,2024-09-05 This is the terrifying story of China s vampire economy State capitalism Socialism with Chinese characteristics A socialist market economy There have been numerous descriptions of the Chinese economy However none seems to capture the predatory at times surreal nature of the economy of the world s most populous nation nor the often bruising and mind bending experience of doing business with the Middle Kingdom Rules and agreements mean little Markets are distorted statistics fabricated foreign industrial secrets and technology systematically stolen Companies and entrepreneurs at home and abroad are bullied often with the collusion of the victims themselves The Party is in every boardroom and lab with businesses thriving or dying at its will All this is part of realising President Xi Jinping s ambition of China becoming the world s pre eminent economic technological and military power One of the Financial Times Best New Books on Economics in 2024 **Biohacked** Brandon J. Weichert,2023-05-16 When COVID 19 erupted from Wuhan China under mysterious circumstances the Communist Party of China covered up its existence for as long as possible It is now apparent that there is more to COVID than what the authorities wish for us to know Biohacked China s Race to Control Life details the decades long pursuit by the Chinese Communists to dominate the biotechnology industry to control the very building blocks of life on Earth to further their political control at home and their supremacy abroad More appalling than the egregious cover up that China s rulers engaged in with COVID 19 is the fact that Western scientists pharmaceutical companies and research labs have contributed to China s rapid and dangerous growth in the biotech industry so much so that China not the United States may become the seat of the biotechnology industry The Chinese leadership believes that biotechnology is a critical industry for the Communist Party to achieve its China Dream of becoming the world s dominant superpower by 2049 In China s biotech sector truly macabre practices are being developed from ambitious cloning programs to the creation of potential pathogens that China s military plans to use in specific genetic attacks against Beijing s growing list of political enemies To stop the threat author Brandon J Weichert proposes the world s nations create a comprehensive set of treaties for regulating biotechnology research and development Further Weichert calls for Washington to slow the

transfer of advanced biotechnology knowledge and funding from the United States to China using means like the Foreign Corrupt Practices Act and the Committee on Foreign Investment in the United States CFIUS Unless an all of government and society approach is taken to curbing irresponsible biotech development in China then another deadlier COVID 19 like pandemic could be at hand     Understanding Crisis in Critical Care Ronaldo Collo Go,2021-11-26 The first detailed retrospective of the spread and management of COVID 19 and a blueprint for better management of the next major healthcare crisis From a team of global experts Understanding Crisis in Critical Care describes the global spread of COVID 19 and analyzes how it was managed compared to other deadly epidemics such as SARS and MERS The book features contributors from across the world who dealt first hand with COVID 19 making this a truly global retrospective on new global pandemics Organized into three sections the text covers critical care changes associated with crises crises in pandemics trauma and crises in war and natural disasters You ll learn how hospitals are transformed to accommodate surges in patients while dealing with shortages in staffing medications mechanical ventilators and personal protective equipment and get an invaluable look at how real time critical decision were made during the height of the pandemic This one of a kind guide covers Working the frontlines Antimicrobials versus Immunomodulators Respiratory failure and mechanical ventilation Repurposing therapies for COVID 19 Endocrinologic and cardiovascular Issues Special Populations pediatrics and immunocompromised patients SARS MERS COVID 19 Ebola Anthrax Influenza Traumatic brain and lung injury Palliative care and bioethics Psychiatric issues Intensive care units under austere conditions Terrorism biological and chemical
