Multidisciplinary Approaches in AI, Creativity, Innovation, and Green Collaboration Fields, Ziska, 2023-05-01

Creativity must be turned into innovation that adds value and leads to strategic action Innovation is often associated with Silicon Valley expensive research and development departments and expensive commercialization that primarily benefits a small portion of the world's population A small portion of the world's population working together to solve wicked green problems is not enough either Green creativity and eco innovation are necessary to help solve green problems by making products and services available and affordable to the masses Multidisciplinary Approaches in AI Creativity Innovation and Green Collaboration focuses on the importance of green creativity eco innovation and collaboration to create a more sustainable world It builds on the available literature and joint expertise in the field of management while providing further research opportunities in this dynamic field Covering topics such as eco leadership green marketing and social responsibility communication this premier reference source is a comprehensive and timely resource for government officials decision makers business leaders and executives students and educators of higher education librarians researchers and academicians

The New Fire Ben Buchanan, Andrew Imbrie, 2022-03-08 AI is revolutionizing the world Here's how democracies can come out on top Artificial intelligence is revolutionizing the modern world It is ubiquitous in our homes and offices in the present and most certainly in the future Today we encounter AI as our distant ancestors once encountered fire If we manage AI well it will become a force for good lighting the way to many transformative inventions If we deploy it thoughtlessly it will advance beyond our control If we wield it for destruction it will fan the flames of a new kind of war one that holds democracy in the balance As AI policy experts Ben Buchanan and Andrew Imbrie show in *The New Fire* few choices are more urgent or more fascinating than how we harness this technology and for what purpose The new fire has three sparks data algorithms and computing power These components fuel viral disinformation campaigns new hacking tools and military weapons that once seemed like science fiction To autocrats AI offers the prospect of centralized control at home and asymmetric advantages in combat It is easy to assume that democracies bound by ethical constraints and disjointed in their approach will be unable to keep up But such a dystopia is hardly preordained Combining an incisive understanding of technology with shrewd geopolitical analysis Buchanan and Imbrie show how AI can work for democracy With the right approach technology need not favor tyranny
