Homebodies L. Archer Porter, Lindsey Archer Porter, 2026-02-03 Homebodies Performance and Intimacy in the Age of New Media sheds light on a fascinating yet often overlooked phenomenon how ordinary people transform their private lives into captivating performances for the digital stage Focusing on home dance videos shared on Instagram from 2010 to 2020 the book explores the delicate art of intimaesthetics the aestheticization of intimacy through the interplay of body space and media and the paradox of the homebody These seemingly spontaneous performances reveal how users craft images of closeness and authenticity drawing audiences into a curated version of their domestic lives Yet Porter argues these intimate portrayals exist within a larger system of platform control algorithmic surveillance and the commodification of personal expression Porter utilizes hand drawn illustrations in place of screenshots which reflects their commitment to critiquing the exploitative dynamics of digital visibility while respecting the personal nature of the media studied By examining the intersection of personal agency algorithmic control and the commodification of authenticity Homebodies provides a nuanced understanding of how technology redefines intimacy identity and creativity in the twenty first century **Selling Online**

authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy, and psychology as well as more than a decade of hands-on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego, and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets: platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego, and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family, or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling. *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative, and in the end deliver more effective marketing that provides value. Branding Between the Ears: Using Cognitive Science to Build Lasting Customer Connections Sandeep Dayal, 2021-11-30. Build a cognitive brand that connects with your customers in the deepest, most meaningful ways. Successful marketing is all about unlocking the door to people's thoughts, feelings, memories, and fantasies. Tap into one or more of these, and your brand will stick forever. In *Branding Between the Ears*, world-renowned marketing thought leader Sandeep Dayal explains how to leverage behavioral psychology, social anthropology, and neuroscience to decode what goes on in consumer minds and create effective marketing strategies to build the kind of loyalty that fuels today's iconic brands. Dayal reveals that most successful cognitive brands are architected around three questions consumers ask themselves: Does this brand give me good vibes? Does what this brand says make sense to me? Will I be happier if I buy this brand? These three factors—good brand vibes, brand sense, and brand resolve—are the hidden mantra that push customers off the fence of indecision and get them not just to admire but actually buy the brands again and again. *Branding Between the Ears* reveals paradigm shifts in building and executing brands that are informed by a burgeoning body of research in brain sciences and offers a better way to make brands that not just stand out but connect with consumers and embed deeply in their thoughts to drive choice. Dayal is the marketing thought leader who predicted that consumer collaboration would be the key factor in winning people's trust online and giving consumers control over their personal information, would be central to gaining their trust. Issues that are unfolding today. Now.

with Branding Between the Ears he provides equally prescient principles and new ideas for gaining the competitive edge in a largely uncertain future and winning with cognitive power brands Influencer Marketing.
