A little more about the book if you want that: An AI Money Model is a deliberate sequence of offers powered by artificial intelligence. It's what you offer, when you offer, and how you offer it to make as much money as you can, as fast as you can. Ideally, to make enough money from one customer to get and service at least two more customers in less than thirty days. And it rarely looks clean, but I break AI Money Models into three stages.

Stage I: Get Cash

AI Attraction Strategies get more customers for less through YouTube channel optimization, automated social media content creation, compelling ebook generation.

Stage II: Get More Cash

AI Upsell/Downsell Strategies make more money from them faster through engaging online course design, optimized Upwork/Fiverr service offerings.

Stage III: Get The Most Cash

AI Continuity Strategies maximize their total money spent through automated email marketing systems, AI-powered customer relationship management.
