Colonial Empires And Armies 1815 196:

Colonial Empires and Armies, 1815-1960 Victor Gordon Kiernan, 1998 A wide ranging book which brings within a single view the wars which created Europe's empires Beginning with the post Napoleonic era it presents all the major episodes of an often dramatic story in which the military agents of European imperialism met the peoples of the rest of the world in armed conflict

Colonial Empires and Armies, 1815-1960 Victor Gordon Kiernan, 1998 Beginning with the post Napoleonic era this volume presents all the major episodes of an often dramatic story in which the military agents of European imperialism met the peoples of the rest of the world in armed conflict

Gunboats, Empire and the China Station Matthew Heaslip, 2020-10-01 Examining Britain's imperial outposts in 1920s East Asia this book explores the changes and challenges affecting the Royal Navy's third largest fleet the China Station as its crews fought to hold back the changing tides of fortune Bridging the gap between high level naval strategy and everyday imperial culture Heaslip highlights the importance of the China Station to the British imperial system foreign policy and East Asian geopolitics while also revealing the lived experiences of these imperial outposts Following their immersion into a new world and the challenges they encountered along the way it considers how its naval officers were perceived by the Chinese populations of the ports they visited how the two communities interacted and what this meant at a time of peace Against the changing nature of Britain's informal empire in the 1920s *Gunboats Empire and the China Station* highlights the complex nature of naval operations in between major conflicts and calls into question how peaceful this peacetime truly was

Truman and MacArthur Michael D. Pearlman, 2008-03-12 Truman and MacArthur offers an objective and comprehensive account of the very public confrontation between a sitting president and a well known general over the military's role in the conduct of foreign policy In November 1950 with the army of the Democratic Peoples Republic of Korea mostly destroyed Chinese military forces crossed the Yalu River They routed the combined United Nations forces and pushed them on a long retreat down the Korean peninsula Hoping to strike a decisive blow that would collapse the Chinese communist regime in Beijing General Douglas MacArthur the commander of the Far East Theater pressed the administration of President Harry S Truman for authorization to launch an invasion of China across the Taiwan straits Truman refused MacArthur began to argue his case in the press a challenge to the tradition of civilian control of the military He moved his protest into the partisan political arena by supporting the Republican opposition to Truman in Congress This violated the President's fundamental tenet that war and warriors should be kept separate from politicians and electioneering On April 11 1951 he finally removed MacArthur from command Viewing these events through the eyes of the participants this book explores partisan politics in Washington and addresses the issues of the political power of military officers in an administration too weak to carry national policy on its own accord It also discusses America's relations with European allies and its position toward Formosa Taiwan the long standing root of the dispute between Truman and MacArthur

The Ascendancy of Europe: Aspects of European History, 1815-1914 Matthew

Smith Anderson, 1972 Scotland's Empire and the Shaping of the Americas, 1600-1815 Thomas Martin Devine, 2004 Scotland's influence was crucial for the worldwide success of Britain's overseas empire. As emigrants, soldiers, tobacco lords, merchants, and colonial administrators, Scots were involved in nearly every aspect of running and financing Britain's colonies in America, Australia, and India. T. M. Devine, Scotland's leading historian, draws on a wealth of new material to provide a comprehensive examination of Scotland's multifaceted role in colonization. He deftly portrays the key contributions by Scots to the development of the Americas, from political ideas to business. In the first of a two-volume set, *Scotland's Empire* combines detailed scholarship with a compelling narrative, setting the Scots' story against the rise of the British Empire, the course of American history, and the changes in world history. *Networks of Domination* Paul MacDonald, 2014-05-15 In the nineteenth century, European states conquered vast stretches of territory across the periphery of the international system. Much of Asia and Africa fell to the armies of the European great powers, and by World War I those armies controlled 40 percent of the world's territory and 30 percent of its population. Conventional wisdom states that these conquests were the product of European military dominance or technological superiority, but the reality was far more complex. In *Networks of Domination*, Paul MacDonald argues that an ability to exploit the internal political situation within a targeted territory, not mere military might, was a crucial element of conquest. European states enjoyed greatest success when they were able to recruit local collaborators from within the society and exploit divisions among elites. Different configurations of social ties connecting potential conquerors with elites were central to both the patterns of imperial conquest and the strategies conquerors employed. MacDonald compares episodes of British colonial expansion in India, South Africa, and Nigeria during the nineteenth century and also examines the contemporary applicability of the theory through an examination of the United States' occupation of Iraq. The scramble for empire fundamentally shaped and continues to shape the international system we inhabit today. Featuring a powerful theory of the role of social networks in shaping the international system, *Networks of Domination* bridges past and present to highlight the lessons of conquest. **Warfare and Armed Conflicts** Micheal Clodfelter, 2017-05-23 In its revised and updated fourth edition, this exhaustive encyclopedia provides a record of casualties of war from the last five centuries through 2015, with new statistical and analytical information. Figures include casualties from global terrorism, the wars in Iraq and Afghanistan, and the fight against the Islamic State. New entries cover an additional 20 armed conflicts between 1492 and 2007 not included in previous editions. Arranged roughly by century and subdivided by world region, chronological entries include the name and dates of the conflict, precursor events, strategies, and details of the outcome and its aftermath. **The Bookseller and the Stationery Trades' Journal**, 1888 Official organ of the book trade of the United Kingdom. **Bookseller and the Stationery Trades' Journal**, 1888 Canadian Books in Print, 2003 Bookseller, 1888 Vols for 1871-76, 1913-14 include an extra number. The Christmas bookseller is separately paged and not included in the consecutive numbering of the regular series. The

Ascendancy of Europe Matthew Smith Anderson,1983 **The Journal of Developing Areas** ,1981 *Beating Plowshares Into Swords* Paul A. C. Koistinen,1996 Koistinen describes how an undeveloped preindustrial economy forced Americans to fight defensive wars of attrition like the Revolution and the War of 1812 By the time of the Mexican War however a gradually maturing economy allowed the United States to use a much more offensive minded strategy to achieve its goals The book concludes with an exhaustive examination of the Civil War a conflict that both anticipated and differed from the total wars of the industrialized era Koistinen demonstrates that the North relied upon its enormous economic might to overwhelm the Confederacy through a strategy of annihilation while the South bungled its own strategy of attrition by failing to mobilize effectively a much less developed economy *The German Army 1939-45 (1)* Nigel Thomas,2000 On 1 September 1939 when Germany attacked Poland the Wehrmacht numbered 3 180 000 men It eventually expanded to 9 500 000 and on 8 9 May 1945 the date of its unconditional surrender on the Western and Eastern Fronts it still numbered 7 800 000 The Blitzkrieg period from 1 September 1939 to 25 June 1940 was 10 months of almost total triumph for the Wehrmacht as it defeated every country except Great Britain that took the field against it In this first of five volumes examining the German Army of World War II 1939 1945 Nigel Thomas examines the uniforms and insignia of Hitler s Blitzkrieg forces including an overview of the Blitzkrieg campaign itself **Barbarians and Civilization in International Relations** Mark B. Salter,2002-09-20 Explicitly engaging and criticizing Samuel Huntington s Clash of Civilizations Salter The American U Cairo Egypt places Huntington s thesis in context of long line of discourses justifying imperialism Acknowledging a debt to post structuralist theory he argues that Huntington distinguishes between a civilized West and a barbarous Islam that is the natural enemy of civilization In order to expose and delegitimize this attempt to reinscribe imperial cartographies on the post Cold War order he traces the civilization barbarian discourse through the 19th and 20th centuries in order to illustrate the political function that the discourse serves in international relations theory Distributed by Stylus Annotation copyrighted by Book News Inc Portland OR **Building America** ,1947 **Historical Abstracts** Eric H. Boehm,1999 **Military Fashion** John Mollo,1972 Takes a broad view of mostly European uniforms from the 17th century to the early 20th century
