Colonial Identity In The Atlantic World 1500 1800 History Of Rhetoric Ser:

Reason and Rhetoric in the Philosophy of Hobbes Quentin Skinner, 1996-02-22 An outstanding new interpretation of Hobbes one of the most difficult and challenging of political philosophers

Defoe's Writings and Manliness Stephen H. Gregg, 2016-05-13 Defoe's Writings and Manliness is a timely intervention in Defoe studies and in the study of masculinity in eighteenth century literature more generally Arguing that Defoe's writings insistently returned to the issues of manliness and its contrary effeminacy this book reveals how he drew upon a complex and diverse range of discourses through which masculinity was discussed in the period It is for this reason that this book crosses over and moves between modern paradigms for the analysis of eighteenth century masculinity to assess Defoe's men A combination of Defoe's clarity of vision a spirit of contrariness and a streak of moral didacticism resulted in an idiosyncratic and restless testing of the forces surrounding his period's ideas of manliness Defoe's men are men but they are never unproblematically so they display a contrariness which indicates that a failure of manliness is never very far away

The South as an American Problem Larry J. Griffin, Don Harrison Doyle, 1995 In this volume twelve authors take a challenging new look at the South Departing from the issue that has lately preoccupied observers of the South the region's waning cultural distinctiveness the contributors instead look at the dynamics of the region's long troubled relationship with the rest of the nation What they discover allows us all to view the current state and future course of the South as well as its link to the broader culture and polity in a new light To envision the concept of the Problem South and what it means to those within and without the region six historians have joined together with a sociologist an economist two literary scholars a legal scholar and a journalist Their essays which range in subject from the South's climate to its religious fundamentalism to its great outpouring of fiction and autobiography are the products of strong and independent minds that cut across disciplines disagree among themselves blend contemporary and historical insights and confront conventional wisdom and expedient generalities Although consensus among the contributors was never the goal of this collection some common themes do suggest themselves Above all there is not only a South defined by its geography history and society but also a mythic and metaphoric South one continually refashioned by national regional discourse trends and events In addition the South has long been a mirror in which America has viewed itself The nation has sought time and again to change the region but it has also used the South to expose and modify darker impulses of American culture

Transgressing the Bounds Louise A. Breen, 2001-02-22 This study offers a new interpretation of the Puritan Antinomian controversy and a skillful analysis of its wider and long term social and cultural significance Breen argues that controversy both reflected and fostered larger questions of identity that would persist in Puritan New England during the 17th century Some issues discussed here include the existence of individualism in a society that valued conformity and the response of members of an inward looking localistic culture to those among them of a more cosmopolitan nature Central to Breen's study is the Ancient and Honorable Artillery

Company of Massachusetts an elite social club that attracted a heterogeneous yet prominent membership and whose diversity contrasted with the social and religious ideals of the cultural majority **Books in Print Supplement** ,1994

The Art of Professing in Bourbon Mexico James M. Córdova,2014-01-06 Offering a pioneering interpretation of the crowned nun portrait this book explores how visual culture contributed to local identity formation in Mexico **America, History and Life** ,1997 Article abstracts and citations of reviews and dissertations covering the United States and Canada

Book Review Digest ,1989 Excerpts from and citations to reviews of more than 8 000 books each year drawn from coverage of 109 publications Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language Reviews of the following types of books are excluded government publications textbooks and technical books in the sciences and law Reviews of books on science for the general reader however are included The reviews originate in a group of selected periodicals in the humanities social sciences and general science published in the United States Canada and Great Britain Publisher Z. Angl. Am ,1996 **Forthcoming Books** Rose

Army,1996-10 **Arts & Humanities Citation Index** ,1992 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals *The British-Atlantic Trading*

Community,1760-1810 Sheryllynne Haggerty,2006 This book stresses the role of lesser traders including women in the distribution of goods around the Atlantic world 1760 1810 Networks of people credit and goods bound the British Atlantic trading community together despite the many crises of this period Ler história ,2005 Greater Britain, 1516-1776

David Armitage,2004 The articles and essays in this volume represent the results of a decade s work on British history as a set of interlocking national histories as a transnational history linked to the history of continental Europe and as an international history within the Atlantic world **Directory of American Scholars** Rita C. Velázquez,1999 Completely

updtad this 9th edition presents biographical profiles of United States and Canadian scholars currently active in teaching research and publishing in the fields of philosophy religion and law **American Book Publishing Record** ,1991

Atlantic Arbitrations Benjamin Jacob Herman,2021 This dissertation offers a new analysis of the trans Atlantic political culture of the English Empire in North America in the four decades following the creation of Virginia Previous studies have shown that the English state took great interest in initial colonial efforts and enacted policies that served the collective interests of state goals for empire Using a combination of previously unused legal records and petitions as well as familiar manuscript and printed sources the dissertation shows that ordinary English people played an equally large role in the creation of trans Atlantic political culture Through a combination of lawsuits requests petitions and letters English people accessed the state and actively desired to involve it in solving problems in their communities They had done so in England and their use and access of central institutions reflects customary traditions in early modern English communities The

language deployed by these subjects also stressed their continued relationship with England conducted through the institution of the monarchy and their common membership in the burgeoning English public sphere This thesis sheds new insight on the development of the early English empire and identity formation among its Atlantic subjects Additionally the research has implications for understanding the relationship between the English Crown and the English people in the early seventeenth century and how the relationship between the two acted as a give and take across distance
