Colonialism And The Object:

Current Industrial Reports ,1991 **Teaching Collection (Archaeology** ,1998 Colonial Objects in Early Modern Sweden and Beyond Mårten Snickare,2025-10-01 An elaborately crafted and decorated tomahawk from somewhere along the North American east coast how did it end up in the royal collections in Stockholm in the late seventeenth century What does it say about the Swedish kingdom s colonial ambitions and desires What questions does it raise from its present place in a display cabinet in the Museum of Ethnography in Stockholm Colonial Objects in Early Modern Sweden and Beyond is about the tomahawk and other objects like it acquired in colonial contact zones and displayed by Swedish elites in the seventeenth century Its first part situates the objects in two distinct but related spaces the expanding space of the colonial world and the exclusive space of the Kunstkammer The second part traces the objects physical and epistemological transfer from the Kunstkammer to the modern museum system In the final part colonial objects are considered at the centre of a heated debate over the present state of museums and their possible futures **Confronting Colonial Objects** Carsten Stahn,2023-10-06 The treatment of cultural colonial objects is one of the most debated questions of our time Calls for a new international cultural order go back to decolonization However for decades the issue has been treated as a matter of comity or been reduced to a Shakespearean dilemma to return or not to return Confronting Colonial Objects seeks to go beyond these classic dichotomies and argues that contemporary practices are at a tipping point The book shows that cultural takings were material to the colonial project throughout different periods and went far beyond looting It presents micro histories and object biographies to trace recurring justifications and contestations of takings and returns while outlining the complicity of anthropology racial science and professional networks that enabled colonial collecting The book demonstrates the dual role of law and cultural heritage regulation in facilitating colonial injustices and mobilizing resistance thereto Drawing on the interplay between justice ethics and human rights Stahn develops principles of relational cultural justice He challenges the argument that takings were acceptable according to the standards of the time and outlines how future engagement requires a re invention of knowledge systems and relations towards objects including new forms of consent provenance research and partnership and a re thinking of the role of museums themselves Following the life story and transformation of cultural objects this book provides a fresh perspective on international law and colonial history that appeals to audiences across a variety of disciplines This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations **Beethoven: Eroica Symphony** Thomas Sipe,1998-09-13 Beethoven s Third Symphony originally entitled Bonaparte now bears the title Eroica Heroic Napoleon promised an Enlightened Europe but ultimately Beethoven was disillusioned by him This handbook treats the politics aesthetics reception and musical meaning of this decisive work which because of its unique design powerfully expanded the potential of symphonic expression Beethoven s ideals derived largely

from the writings of Friedrich Schiller and clearly perceived already by the composer's contemporaries are readily apparent in the music

Sensible Objects Elizabeth Edwards, Chris Gosden, Ruth Phillips, 2006-10-17 Anthropologists of the senses have long argued that cultures differ in their sensory registers This groundbreaking volume applies this idea to material culture and the social practices that endow objects with meanings in both colonial and postcolonial relationships It challenges the privileged position of the sense of vision in the analysis of material culture Contributors argue that vision can only be understood in relation to the other senses In this they present another challenge to the assumed western five sense model and show how our understanding of material culture in both historical and contemporary contexts might be reconfigured if we consider the role of smell taste feel and sound as well as sight in making meanings about objects
