Norita Sieffert

Colony Twelve

Natal (South Africa)

Colony Twelve:

Colony Twelve Norita Sieffert, 2018-08-23 Dr Marri Rawlin suspected nothing when she was called to Colony Twelve to handle a small radiation infestation. The construction was just beginning and she and the other members of the science team objected when the Institute sent a Receiver to investigate further. Receivers were an elusive and mysterious group of men and women who were said to be able to detect radiation through their skin though few believed it. They were feared as mutants and Marri didn't want to frighten the laborers or scare off potential colonists. But when the Receiver arrived Marri found herself immediately intrigued. He was strong and handsome and yet sad. And his abilities affected her in a way she never expected. But the more she was drawn to him the farther away he seemed to get. And they soon discovered that there was more going on than they first thought. Someone was sabotaging the colony and going out of their way to get rid of the science team. But why? What knowledge was so important that they would kill for it? What was buried under the soil of Colony Twelve.

Excavations at Nemea III Robert C. Knapp, John D. Mac Isaac, 2005-05-23 Since 1974 the University of California at Berkeley has been sponsoring extensive excavations at the Panhellenic athletic festival center of ancient Nemea in the modern Greek province of Korinthia. With its well documented excavation and clear historical context the site offers an excellent opportunity for investigation and analysis. This volume the third in a series of publications on Nemea is a detailed presentation of the more than three thousand legible coins from all over the ancient world that have been unearthed there.

The coins which are mostly bronze but show an unusually high proportion of silver reflect the periods of greatest activity at the site the late Archaic and Early Classical the Early Hellenistic the Early Christian and the Byzantine More than a compendium of data the study breaks new ground with its analysis and contextualization of numismatic evidence in an archaeological setting History of the Christian Church: The Puritan reform and the evangelical revival, 1648-1800
