Color Documentary LuAnn Keener, 1994 Poetry that contemplates relationships between all creatures      **Global Film Color** Sarah Street, Joshua Yumibe, 2024-05-17 Global Film Color The Monopack Revolution at Midcentury explores color filmmaking in a variety of countries and regions including India China Japan and Russia and across Europe and Africa Most previous accounts of color film have concentrated on early 20th century color processes and Technicolor Far less is known about the introduction and application of color technologies in the period from the mid 1940s to the 1980s when photochemical monopack color stocks came to dominate global film markets As Eastmancolor Agfacolor Fujicolor and other film stocks became broadly available and affordable national film industries increasingly converted to color transforming the look and feel of global cinema Covering a broad range of perspectives the chapters explore themes such as transnational flows knowledge exchange and transfer the cyclical and asymmetrical circulation of technology in a global context as well as the accompanying transformation of color film aesthetics in the postwar decades      **Psychedelic Modernism: Literature and Film** Raj Chandarlapaty, 2024-04-16 The primary purpose of Psychedelic Modernism Literature and Film is to trace the development of ideas and perspectives from the writing and private ambitions of 20th century modernist writers including Aldous Huxley The purpose of the book is to offer a rough chronology during which ideas were first given a literary imagination then transposed onto discussions of science and psychology and then theoretically democratized to bring fruit to a relatively de centered process where images text and interviews could re conceptualize the modern Being from an admixture of modernist historical and pop roots that could express a greater moment in the human action The work includes discussions from scientists such as Swiss chemist Albert Hofmann rock stars such as Jerry Garcia and unconfirmed mystics such as Carlos Castaneda The primary focus of this work isn't literature per se but the literary imagination as it may correspond to greater wider and more impactful goals than the writing of 20th century fiction While there is some outreach that favors de centered models such as the Beat Generation the author's primary purpose is to assemble an anthology covering the study and quests for knowledge from as many sides as could power the relative 1960s countercultural movement      **Hearings** United States.
