Colossus The Rise And Fall Of The American Empire:

Colossus Niall Ferguson, 2005 Is America the new world empire Presidents from Woodrow Wilson to George W Bush may have denied it but as Niall Ferguson's brilliant and provocative book shows the US is in many ways the greatest imperial power of all time What's more it always has been an empire expanding westwards throughout the nineteenth century and rising to global dominance in the twentieth But is today's American colossus really equipped to play Atlas bearing the weight of the world on its shoulders The United States Ferguson reveals is an empire running on empty weakened by chronic deficits of money manpower and political will When the New Rome falls he warns its collapse may well come from within

Colossus Niall Ferguson, 2012-10-25 Is America the new world empire Presidents from Lincoln to Bush may have denied it but as Niall Ferguson's brilliant and provocative book shows the US is in many ways the greatest imperial power of all time What's more it always has been an empire expanding westwards throughout the nineteenth century and rising to global dominance in the twentieth But is today's American colossus really equipped to play Atlas bearing the weight of the world on its shoulders The United States Ferguson reveals is an empire running on empty weakened by chronic deficits of money manpower and political will When the New Rome falls he warns its collapse may come from within One of the timeliest and most topical books to have appeared in recent years Literary Review Yet another tour de force from a writer who displays all his usual gifts of forceful polemic unconventional intelligence and elegant prose guaranteed to spark fierce debate Irish Times A bravura exploration of why Americans are not cut out to be imperialists but nonetheless have an empire Vigorous substantive and worrying Timothy Garton Ash

The Chickenhawk Syndrome Cheyney Ryan, 2009-05-16 In recent years the question of war and sacrifice has been a major topic of political debate and controversy If our country goes to war for reasons we endorse what is our responsibility to share in its sacrifices Does supporting a war mean serving in it Does it mean encouraging our children to do so Such questions have been posed by the so called chickenhawk phenomenon pro war leaders and their pro war children who call on Americans to assume the burden of war and its sacrifices but avoid those sacrifices themselves President Bush and other architects of the Iraq conflict were the most prominent chickenhawks Cheyney C Ryan argues that the chickenhawk issue is not just a matter of personalities it will remain with us for a long time even though the Bush administration has left office Ryan poses fundamental questions of war and personal sacrifice pointing to the basic disconnection in American politics generally between the support for war and the willingness to assume its costs which he calls Alienated War Calling for the reinvigoration of civic involvement this illuminating and insightful book offers both a philosophical and historical exploration of America's citizen soldier tradition and the consequences involved in separating the citizenry from the armed forces

Theology and Globalisation Rowan Gill, 2005 This book is a critique and commentary on globalisation from a theological perspective Drawing on the works of theologians such as Augustine Rahner Luther Newbigin Moe Lobeda McFague Jesnon Wainwright de Chardin McCaughey and Kung the author critiques

globalisation and those who espouse it defend and promote it For Gill globalisation is an economic phenomenon with political ramifications whereby economic and political aspects of the world become predicated of the whole world itself Central to it is a spirit of competition by which the world is globalised and results in a sense of one globe For the author following Milbank the response to globalisation needs to be a theological one based on the new city of God the Kingdom of God The author is a Minister of the Word in the Uniting Church in Australia who studied theology in Melbourne and undertook post graduate studies in Boston USA

Transfiguring Capitalism John Atherton,2008 Addresses key problems in contemporary life and raises important questions about our growing awareness of the limits of contemporary ways of living with modern economies and modern religion This book explores possible alternatives to such capitalism *The Great Degeneration* Niall Ferguson,2013-06-13 From the bestselling author of *The Ascent of Money* and *The Square* and the Tower a searching and provocative examination of the widespread institutional rot that threatens our collective future What causes rich countries to lose their way Symptoms of decline are all around us today slowing growth crushing debts increasing inequality aging populations antisocial behavior But what exactly has gone wrong The answer Niall Ferguson argues in *The Great Degeneration* is that our institutions the intricate frameworks within which a society can flourish or fail are degenerating With characteristic verve and historical insight Ferguson analyzes the causes of this stagnation and its profound consequences for the future of the West *The Great Degeneration* is an incisive indictment of an era of negligence and complacency and to arrest the breakdown of our civilization Ferguson warns will take heroic leadership and radical reform

Imperialism and Global Political Economy Alex Callinicos,2009-07-27 In *Imperialism and Global Political Economy* Alex Callinicos intervenes in one of the main political and intellectual debates of the day The global policies of the United States in the past decade have encouraged the widespread belief that we live in a new era of imperialism But is this belief true and what does imperialism mean Callinicos explores these questions in this wide ranging book In the first part he critically assesses the classical theories of imperialism developed in the era of the First World War by Marxists such as Lenin Luxemburg and Bukharin and by the Liberal economist J A Hobson He then outlines a theory of the relationship between capitalism as an economic system and the international state system carving out a distinctive position compared to other contemporary theorists of empire and imperialism such as Antonio Negri David Harvey Giovanni Arrighi and Ellen Wood In the second half of *Imperialism and Global Political Economy* Callinicos traces the history of capitalist imperialism from the Dutch East India Company to the specific patterns of economic and geopolitical competition in the contemporary era of American decline and Chinese expansion *Imperialism* he concludes is far from dead **Wither Power Politics?** Bradley Axmith,2013-01-02 Master s Thesis from the year 2009 in the subject Politics Topic Peace and Conflict Security course US Foreign Policy International Relations in the Caspian Sea Region language English abstract The New Great Game in the Caspian Sea Region received moderate attention from scholars following the collapse of the Soviet Union because it

resembled the continuation of rivalry between Washington and Moscow For the eight Caspian republics the discovery of vast oil and gas deposits was the key to securing the newly independent states sovereignty away from Moscow s control toward integration with Europe and the United States This thesis analyses the US treatment of the Caspian Sea Region between 1991 and 2001 in order to measure whether its policies were crafted according to Realist tenets in formulating policy designed to advance its security The historical record seen through Offensive Realism presents evidence that US foreign policy was governed by principles not balance of power considerations led by the false notion that democratic Russia would act in accordance with US goals Intent on fostering democracy in Russia the United States denied the competitive nature of international politics refusing to criticize abuses by Moscow in the region and failing to intervene when US interests were marginalised The US failed to prevent Russia from refashioning conditions conducive to the reabsorption of the Caucasus and Central Asia as a sphere of influence nor did it account for China s expanded role and trajectory as a challenge to US power This analysis shows for example that Russia s proximity and willingness to use force exceeded the capabilities of the US use of its global predominance to shape regional events

the historical cases for insights into policymaking and the nature of imperial power **Digital Talking Books Plus** ,2009

World in Motion Gary M. Kroll,Richard H. Robbins,2009 The essays collected in World in Motion all address the same issue The global paradox that modern prosperity has entailed extreme environmental degradation Gary M Kroll and Richard H Robbins present readings covering all principal viewpoints on this matter from the neoliberal belief that environmental and social problems can be fixed through a growing economy to the critics of globalization who equate growth with environmental degradation This book asks an important question Can we simply accelerate growth under the assumption that increased prosperity and new technologies will allow us to reverse environmental damage Or do we need to transform our modes of living radically to maintain the health of the world around us **Walking in Kenyatta Struggles** D. N. Ndegwa,2006 *SAIS Review* ,2005 *Parliamentary Debates* India. Parliament. Rajya Sabha,2005 *Talking Book Topics* ,2009-03 *After Modernity?* James K. A.
