Theatric Revolution David Worrall, 2006-05-18 The theatre and drama of the late Georgian period have been the focus of a number of recent studies but such work has tended to ignore its social and political contexts Theatric Revolution redresses the balance by considering the role of stage censorship during the Romantic period an era otherwise associated with the freedom of expression Looking beyond the Royal theatres at Covent Garden and Drury Lane which have dominated most recent accounts of the period this book examines the day to day workings of the Lord Chamberlain's Examiner of Plays and shows that radicalized groups of individuals continuously sought ways to evade the suppression of both playhouses and dramatic texts Incorporating a wealth of new research David Worrall reveals the centrality of theatre within busy networks of print culture politics of all casts elite and popular cultures and metropolitan and provincial audiences Ranging from the drawing room of Queen Caroline's private theatrical to the song and supper dens of Soho and radical free and easies Theatric Revolution deals with the complex vitality of Romantic theatrical culture and its intense politicization at all levels This fascinating new study will be of great value to cultural historians as well as to literary and theatre scholars Angel in the Sun Gerald Finley, 1999-03-10 Turner was deeply affected by the world in which he lived the sciences that explained it and the conflicts and accomplishments of his society He wove these strands into the dense fabric of the historical pictures he created pictures that were extremely varied complex original and controversial In Angel in the Sun Gerald Finley untangles the various thematic strands running through Turner's art including the intersection of private and public histories classical and biblical history and contemporary events and science and religion and shows how Turner's use of light and colour played an important role in conveying these ideas Angel in the Sun includes over 130 illustrations in colour and black and white that reveal Turner's remarkable achievement as a painter of historical subjects Because of its interdisciplinary nature the book will appeal not only to art historians and landscape theorists but also to historians of science and literature 'Ut Poesis Pictura': J.M.W. Turner's Illustrations to the British Poets Sharyn Lambert Church, 1997 Gender, Taste, and Material Culture in Britain and North America, 1700-1830 John Styles, Amanda Vickery, 2006 Between 1700 and 1830 men and women in the English speaking territories framing the Atlantic gained unprecedented access to material things The British

Atlantic was an empire of goods held together not just by political authority and a common language but by a shared material culture nourished by constant flows of commodities Diets expanded to include exotic luxuries such as tea and sugar the fruits of mercantile and colonial expansion Homes were furnished with novel goods like clocks and earthenware teapots the products of British industrial ingenuity This groundbreaking book compares these developments in Britain and North America bringing together a multi disciplinary group of scholars to consider basic questions about women men and objects in these regions In asking who did the shopping how things were used and why they became the subject of political dispute the essays show the profound significance of everyday objects in the eighteenth century Atlantic world The Spectator ,1877 A weekly review of politics literature theology and art Colour Painting with Plants Karen Lee Allaby,1983 Poetry Review Stephen Phillips,Galloway Kyle,1923 The Journal of Pre-Raphaelite Studies ,1982 The Studio ,1893
