Edited and compiled by JOHN W.R. TAYLOR

Combat Aircraft Of The World From 1909 T

Bohdan S. Wynar

Combat Aircraft Of The World From 1909 T:

Quest for Performance Laurence K. Loftin, 1985 This provides access to a NASA History Office publication NASA SP 468 by Laurence K Loftin Jr NASA Scientific and Technical Information Branch Washington D C 1985 It traces the technical development of the airplane since World War I It describes significant aircraft that incorporated important technical innovations and served to shape the future course of aeronautical development as well as aircraft that represented the state of the art of aeronautical technology in a particular time frame or that were very popular and produced in great numbers Primary emphasis has been placed on aircraft originating in the United States The discussion is related primarily to aircraft configuration evolution and associated aerodynamic characteristics and to a lesser extent to developments in aircraft construction and propulsion The material is presented in a manner designed to appeal to the nontechnical reader who is interested in the evolution of the airplane as well as to students of aeronautical engineering or others with an aeronautical background The Unofficial Guide to Washington, D.C. Eve Zibart, Renee Sklarew, Len Testa, 2016-02-23 A guide to hotels and attractions in Washington D C The June 1967 Arab-Israeli Six-Day War Tom Cooper, Efim Sandler, 2024-01-20 In June 1967 Israel which seemed on the verge of being annihilated by its Arab neighbors took six days to redraw the Middle Eastern strategic map in one of the most dramatic reversals of fortune in modern times The success was over a decade in the making following the Suez Crisis with the Israeli forces being radically changed to create an army and air force upon which the country would rely when it became obvious the international community would take no action to implement guarantees made after the events of 1956 The Israeli forces were honed in low level clashes during the 1960s notably the Water Wars which the Israelis did so much to provoke By contrast the Arab forces became complacent largely due to supplies of arms from the Warsaw Pact states With proper training this complacency could have been turned into military effectiveness but the Arab forces were plagued by internal rivalries and high commands too often depending upon politically reliable officers rather than those who were militarily effective The Egyptian forces were further undermined by their commitment to the debilitating Yemen Civil War which meant they were in no condition to confront Israel Syria and Jordan whose forces could not fight the Israelis alone complained loudly about President Nasser's lack of action against Israel Nasser's decision in early 1967 to regain the prestige he had lost since the heady days of the Suez Crisis with a demonstration in the Sinai Peninsula was interpreted by the Israelis as preparations for an invasion Nasser did nothing to persuade them otherwise and when it was clear the international community would do nothing the Israelis decided to strike Egypt and in turn Syria and Jordan The Israeli campaign was heralded by a massive surprise air attack first on the Egyptians and then on the other neighboring states and ground offensives then followed in succession Volume 1 of The June 1967 Arab Israeli Six Day War provides an in depth background to the long running confrontation between Arab and Jew in the Middle East a detailed overview of the rival air forces that would become embroiled in the conflict and an account of the opening Israeli air strikes against Egyptian

targets This volume is illustrated throughout with original photographs and includes specially commissioned full color aircraft profiles **Air University Library Index to Military Periodicals** ,1958 **NASA SP.** ,1985 **Air University Periodical Index** ,1958 **Lessons from World War I for the Rise of Asia** Andreas Herberg-Rothe,2015-06-01 This groundbreaking volume offers a historical comparison between the events leading up to World War I and current global tensions related to the economical and political rise of Asia What are the risks that the desire of the new super power China and great powers like India to be recognized by the West could set off a chain of events resulting in the nightmare of a great power war Assessing the similarities as well as differences between the build up of World War I and today it is argued that we need to understand the driving forces behind the scene of global politics The conflict between rising established and disintegrating powers and the desire of recognition on all sides Carefully dissecting the current power dynamics in play the authors hope to contribute to a better understanding of world events in order to ensure that history will not repeat itself
