Contemporary Issues in Gerontology Victor Minichiello, Irene Coulson, 2005 The aged population of the developed world is dramatically and increasingly outnumbering the young *Contemporary Issues in Gerontology* helps students and practitioners to better understand and provide for the needs of our ageing population

Healthy Aging, Mental Health, and Sexuality Alex Siu-Wing Chan, Elsie Yan, Steve Wai Hee Chan, 2023-10-23 Sexuality is the manner in which we undergo and exhibit sexuality It includes emotions wants behaviors and identities as well as a variety of forms of physical contact or stimulation Intimacy is a sense of togetherness and connection in a relationship which may or may not include physical contact Aging creates possibilities for older individuals to reinterpret what sexuality and intimacy entail for them as a result of life changes Certain older individuals want both a sexual and an intimate partnership while others are fine with either and some may opt to reject both sorts of partnership Normal aging also causes physiological changes that might interfere with the capacity for and enjoyment of sexual activity Our bodies such as our size skin and muscular condition shift as we age Certain older individuals are unhappy with their deteriorating bodies They may be concerned that their lover no longer finds them appealing Intimacy and a satisfying sex life may be hindered by physical issues brought on by health disorders as well as by stress and anxiety Men and women have different sexual problems Erectile Dysfunction or ED occurs when a man has difficulty achieving or maintaining an erection In certain cases ED is caused by prostate cancer therapies such as prostatectomy a procedure in which the prostate is surgically removed in its entirety or in part The condition is also caused by other health issues such as excessive blood sugar heart disease or pelvic trauma Notwithstanding the transformations brought on by natural aging sexuality remains a vital aspect of our lifestyles as we age Sexual health and function are essential elements of healthy aging Sexual activity is connected with superior psychological health self esteem marriage quality as well as personal well being whereas its absence is linked to a worse standard of living Considering the significance of sexual function and sexual well being in evaluating healthy aging as well as the inadequate knowledge of urological health among elderly people this research topic highlights

some of the key urological health aspects relevant to the journeys and mental or medical consequences of healthy aging psychological wellbeing and sexuality Among the broad questions of interest are the following The experiences of older adults who identify as having a urological disorder or a mental disorder Sexual health and sexual function dysfunction in older adults Correlation between psychological disorder and urological health among older adults Culture sociological discussion between psychological distress and healthy aging among older adults Addressing sexual function and sexual well being and healthy aging Case studies of effective practice Specific sexual orientation issues among older adults with urological disorders Incorporating a patient care address for older adults with urological illnesses into the community We are thus seeking innovative research papers review articles hypothesis and theory pieces viewpoint articles short research report articles commentary articles opinion articles and book reviews We expect that by combining the ideas of scholars from diverse disciplines or contexts we will be able to explore the relationship between the significance of sexual function and sexual well being in defining healthy aging and bridge the knowledge gap in urological health among older adults

Population Aging Donald T. Rowland, 2012-04-26 Population Aging The Transformation of Societies presents an overview and international comparison of the causes consequences and policy implications of one of the major processes of change in contemporary societies It provides a foundation for understanding and reflecting on key demographic and social trends together with related theoretical and policy frameworks that are important in explaining changes and designing informed responses With particular reference to countries that have the oldest or largest aged populations the book presents a synthesis of research on population aging new analyses of trends and a discussion of the major social policy strategies Key topics include the new demography of aging population health family change the Third Age international policy concepts and strategies and comparisons of countries such as in terms of the relative risks they face from population aging and their resilience as changes occur Overall the book presents a broad interdisciplinary perspective on the determinants and consequences of population aging The book is written for an international audience of policy makers educators and practitioners in health and welfare together with students in the social sciences and health sciences It provides an accessible and academically informed exposition of the field for people engaging with issues arising from population aging in their own country

Growing Old in The Age of New Media Debarati Dhar, 2025-08-19 This book explores new media s effectiveness in enhancing socialization among elderly individuals through quantitative and qualitative information It fills a gap in media studies and gerontology by focusing on older adults often overlooked use of new media The chapters cover topics such as the impact of new media on family structures the accessibility of media to the elderly and the role of social media in providing support and engagement for older adults The chapters deal with empirical evidence on how social media offers new possibilities for engaging and providing and receiving support It emphasizes the importance of personality and attitude in technology adoption among older people It is a valuable resource for scholars in media studies and gerontology and those

interested in the intersection of these fields and its implications for urban governance *Population Ageing and Australia's Future* Hal Kendig, Peter McDonald, John Piggott, 2016-10-21 This volume provides evidence from many of Australia's leading scholars from a range of social science disciplines to support policies that address challenges presented by Australia's ageing population. It builds on presentations made to the 2014 Symposium of the Academy of the Social Sciences in Australia. The material is in four parts: Perspectives on Ageing; Population Ageing: Global, regional and Australian perspectives; Improving Health and Wellbeing; Responses by Government and Families. Individuals. The Academy of the Social Sciences in Australia sees this volume as a major contribution to improving our understanding of Australia's population ageing. Social science research in this area truly underpins our ability as a nation to manage such demographic change and its consequences for the economy and society. Such knowledge helps ensure that our citizens can live even better lives. Glenn Withers, President ASSA. It is fantastic that Australians are living longer and healthier lives but we need to address these demographic changes. The Hon Joe Hockey MP 2015 Intergenerational Report **Gerotechnology** David C. Burdick, PhD, Sunkyo Kwon, PhD, Dipl-Psych, 2004-10-04 Two megatrends of modern culture are rapid population aging and the inexorable advances in various technologies encountered by the population at large. This comprehensive volume explores the intersections of technology with aging and serves as both a primer and reference for educators, students, researchers, and practitioners. It includes concepts from the basics of gerotechnology, person-environment fit to the core activity fields, computer and assistive devices, and their practical applications to models or prototypes for technical development and its application to everyday life. Thought-provoking concluding chapters address ethical concerns for the future as well as offer new perspectives or context to ideas and innovations explored earlier **Shaping Wise Futures**, 2021-10-25 We are poised at a crossroads between a past that is outgrown and a future we must choose. This book examines the multiple ways that wisdom grounded in life experience, science, and theoretical knowledge can contribute to positive and sustainable local and global futures. The authors in this book have brought their thinking to various aspects of this existential challenge using the lenses of Wisdom and Wise Practice in an effort to explore ideas by which society might make choices in planning and acting for a wiser future. Wisdom practices have developed over millennia to assist people in approaching and managing life experiences and difficulties. While such practices were originally considered the purview of academic and religious scholars at this important time in history, it must become everyone's responsibility to wisely look ahead if we are to achieve a sustainable future for society. The authors of this book comprise international, future-oriented leaders, scholars, practitioners, community members, and commentators with a commitment to social justice, human service, and development. The book explores the place of wisdom and wise living practices alongside other ways of knowing and acting for shaping positive futures for people and the world we inhabit. The chapters examine major challenges across political, physical, and social life worlds, aiming to promote a quantum shift in discourse and decision making to address current and future challenges. The four parts of the book follow: forward thinking
