postcolonial experience engaging with the spectrum of postcolonial spatialities which play a significant role in defining global postcolonial culture      **What Postcolonial Theory Doesn't Say** Anna Bernard,Ziad Elmarsafy,Stuart Murray,2015-08-11

This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary political developments such as Zimbabwean land reform postcommunism and the economic rise of Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems

**Rereading the Imperial Romance** Laura Chrisman,2000 This book examines literary romance as a vehicle for the ideological contradictions of British imperialism in South Africa Chrisman draws upon postcolonial theory and cultural materialism to discuss the imperialist Rider Haggard s fictional accounts of mining in King Solomon s Mines and Zulu history in Nada the Lily examining these novels as fraught responses to the introduction of capitalist modernity She goes on to analyse the counter narratives of metropolitan and African resistance of feminist Olive Schreiner and black nationalist Sol Plaatje Exploring Schreiner s much neglected Trooper Peter Halket of Mashonaland Chrisman situates this book in relation to the violent creation of Rhodesia the 1896 7 Shona uprisings and contemporary criticism of Cecil Rhodes In doing so she shows how Schreiner s is a much more challenging example of anti imperialist fiction than Conrad s Heart of Darkness published two years later Chrisman s discussion of Plaatje s Mhudi the first black African novel in English considers the book as a direct response to Haggard s imperialism and Schreiner s feminist theory Locating the book through the politics and epistemology of the early ANC she reveals how Plaatje challenges Haggard s misogyny and fatalistic historiography Mhudi she argues is a novel whose nationalist and sexual politics are considerably more complex than has been recognized Plaatje uses his narrative form to articulate both radical and liberal alternatives to white South African rule Chrisman s book

demonstrates how South Africa played an important if now overlooked role in British imperial culture and shows the impact of capitalism itself in the making of racial gender and national identities This book makes an original contribution to studies of Victorian literature of empire South African literary history African studies black nationalism and the literature of resistance

**Postcolonial Theory** ,1999 **Postcolonial Theory** B. J. Moore-Gilbert, 1997 Much controversy has recently come to surround the status and value of postcolonial modes of cultural analysis Postcolonial theory has been challenged on several fronts on its interdisciplinary competence on the politics of its institutional location and its implicit will to have power over other kinds of postcolonial analysis many of which have been established for much longer than postcolonial theory itself The ensuing debate has often become so heated even personalized that the issues at stake have been obscured In what is the most comprehensive and accessible survey of the field to date Bart Moore Gilbert systematically examines the objections that have been raised against postcolonial theory revealing the simplifications and exaggerations on both sides of the argument He provides a detailed institutional history of the ways in which the relationship between culture and colonialism was traditionally studied in the West then traces the emergence of alternative forms of postcolonial analysis

of such questions He gives an extremely careful presentation of the complex and elusive work of the three principal representatives of postcolonial theory Gayatri Spivak Edward Said and Homi Bhabha and considers the criticisms they have faced from an alleged Eurocentrism to an obfuscatory prose style And he assesses the overlaps and differences between postcolonial theory and other forms of postcolonial criticism Finally he considers the ways in which postcolonial analysis may be connected with different histories of oppression and looks at how such a heterogeneous theory can be reconciled with political questions of solidarity and alliance in the continuing struggle for cultural decolonization Postcolonial Theory and Lusophone Literatures Paulo de Medeiros,2007
