Contemporary Clay Japanese Ceramics For The New Century:

Contemporary Clay Joe Earle, 2005 Essay by Joe Earle **Modern Japanese Ceramics** Anneliese Crueger, Wulf Crueger, Saeko Ito, 2007 For more than 30 years Dr Anneliese and Dr Wulf Crueger guided by Saeko Ito have devoted themselves to studying understanding and collecting Japanese ceramics Today they share the rich fruits of their knowledge with this lavishly illustrated volume based on their own collection The equivalent of Roberts Museum Guide devotees of beautiful ceramics can pick it up and use it to select and visit potters as they undertake an artistic tour of the country Organized geographically it goes from kiln to kiln which in Japan may refer to a lone site or an entire ceramics region that contains hundreds of workshops Along the way they outline the history development and unique stylistic characteristics of each area s work and the traditions that inspired it **Japan Info** ,2005 **Listening to Clay** Alice North, Halsey North, Louise Allison Cort, 2022-06-14 The first book to tell the stories of some of the most revered living Japanese ceramists of the century tracing the evolution of modern and contemporary craft and art in Japan and the artists considerable influence which far transcends national borders Listening to Clay Conversations with Contemporary Japanese Ceramic Artists is the first book to present conversations with some of the most important living Japanese ceramic artists Tracing the evolution of modern and contemporary craft and art in Japan this groundbreaking volume highlights sixteen individuals whose unparalleled skill and creative brilliance have lent them an influence that far transcends national borders Despite forging illustrious careers and earning international recognition for their work these sixteen artists have been little known in terms of their personal stories Ranging in age from sixty three to ninety three they embody the diverse experiences of several generations who have been active and successful from the late 1940s to the present day a period of massive change Now sharing their stories for the first time in Listening to Clay they not only describe their distinctive processes inspirations and relationships with clay but together trace a seismic cultural shift through a field in which centuries old but exclusionary potting traditions opened to new practitioners and kinds of practices Listening to Clay includes conversations with artists born into pottery making families as well as with some of the first women admitted to the ceramics department of Tokyo University of the Arts telling a larger story about ingenuity and trailblazing that has shaped contemporary art in Japan and around the world Each artist is represented by an entry including a brief introduction a portrait selected examples of their work and an intimate interview conducted by the authors over several in person visits from 2004 to 2019 At the core of each story is the artist s personal relationship to clay often described as a collaboration with the material rather than an imposing of intention The oldest artist interviewed Hayashi Yasuo enlisted in the army during WWII at age fifteen and trained as a kamikaze pilot He was born into a family that had fired ceramics in cooperative kilns for generations but he rejected traditional modes and went on to be the first artist in Japan to make truly abstract ceramic sculpture In the late 1960s another artist Mishima Kimiyo developed a technique of silkscreening on clay and began making ceramic newspapers to

comment on the proliferation of the media She became fascinated with trash recreating it out of clay and worked in relative obscurity for decades until she had a major exhibition in Tokyo in 2015 Featuring a preface by curator writer and historian Glenn Adamson and a foreword by Monika Bincsik the Associate Curator for Japanese Decorative Arts at The Metropolitan Museum of Art *Listening to Clay* has been a project more than fifteen years in the making for authors Alice and Halsey North respected and knowledgeable collectors and patrons of contemporary Japanese ceramics and Louise Allison Cort Curator Emerita of Ceramics National Museum of Asian Art Smithsonian Institution The book also includes conversations with five important dealers of contemporary Japanese ceramics who have played and are playing a critical role in introducing the work of these artists to the world several detailed appendices and a glossary of terms relevant people and relationships *Listening to Clay* is a long overdue and insightful book that for the first time spotlights some of Japan's most celebrated contemporary ceramic artists through personal idiosyncratic accounts of their day to day lives giving special access to their creative process and artistic development
