## **Contemporary Criticism:**

**Blindness and Insight** Paul de Man, 2013-10-28 In *Blindness and Insight* de Man examines several critics and finds in their writings a gap between their statements about the nature of literature and the results of their practical criticism. Not only are the critics unaware of this gap, says de Man, but their blindness to it often leads to some of their most valuable insights. The central issue of de Man's work is the rhetorical constitution of the text, and this book, with its new introduction by Wlad Godzich and five additional essays by de Man, is meant to challenge readers to a new appreciation of their chosen task as readers of literature. Included in this new edition are the original essays on Binswanger, Poulet, Lukas, Blanchot, the New Critics, and Derrida's *Grammatology*, as well as five more: *The Rhetoric of Temporality*, *The Dead End of Formalist Criticism*, Heidegger's *Exegesis of Holderlin*, a review of Bloom's *Anxiety of Influence*, and *Literature and Language*.

*Modern Criticism and Theory* David Lodge, 1988 Provides within the covers of a single book a selection of important and representative work from all the major theoretical schools or tendencies in contemporary criticism and places them before the reader in two alternative orders: one historical, the other thematic.

*Modern Criticism and Theory* Nigel Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations, with some twenty-five new pieces or essays included. This expansion has two principal purposes. Firstly, in keeping with the collection's aim to reflect contemporary preoccupations, the reader has expanded forward to include such newly emergent considerations as ecocriticism and post-theory. Secondly, with the aim of presenting as broad an account of modern theory as possible, the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries, such as Marx, Freud, and Virginia Woolf. This radical expansion of content is prefaced by a wide-ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools. The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate. It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding. Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading, and footnotes that help explain difficult references. The collection is ordered both historically and thematically, and readers are encouraged to draw for themselves connections between essays and theories. *Modern Criticism and Theory* has long been regarded as a necessary collection. Now revised for the twenty-first century, it goes further and provides students and the general reader with a wide-ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today.
