American History and Contemporary Hollywood Film Trevor McCrisken, 2005 Hollywood has a growing fascination with America's past This is evidenced in the release of a rash of films of this genre in the past 25 years This book offers an analysis of how and why contemporary Hollywood films have sought to mediate American history It is the first book to explore comprehensively the post Cold War period of film making and to consider whether or how far contemporary films have begun to unravel the unifying myths of earlier films and periods It also considers why such films are becoming increasingly integral to the ambitions of a globally focused American film industry. The relationship between film and history the way in which film mediates history and vice versa is a complex one In this book the authors work from two main assumptions First that films revision events to challenge or perhaps more typically to reaffirm traditional historical interpretations Second that this process can only be understood in the context of contemporary debates about identity politics America s role in world affairs and the globalisation of the American film business The book is structured by historical periods and includes chapters on The American Revolution Revolution The Patriot Slavery Roots Amistad The Civil War Gettysburg Glory Ride with the Devil Cold Mountain World War II Saving Private Ryan Thin Red Line Pearl Harbor Oliver Stone and the Decade of Trauma Platoon Born on the Fourth of July Heaven and Earth Nixon Civil Rights and Black Nationalism Panther Mississippi Burning The Hurricane Malcolm X Ali American Interventionism Three Kings Black Hawk Down Key Features Unique the only book to provide comprehensive analysis of the relationship between film and American history in the post Cold War era Topical explores the relationship between cinema representation and national identity Accessible analyses a broad range of popular mainstream films which engage with well known historical events Uses cultural theory to help consider the complex relationship between film and history Engages with the contentious issue of the extent to which film distorts revisions historical truths Film Theory and Contemporary Hollywood Movies Warren

Buckland, 2009-06-03 Film theory no longer gets top billing or plays a starring role in film studies today as critics proclaim that theory is dead and we are living in a post theory moment While theory may be out of the limelight it remains an essential key to understanding the full complexity of cinema one that should not be so easily discounted or discarded In this volume contributors explore recent popular movies through the lens of film theory beginning with industrial economic analysis before moving into a predominately aesthetic and interpretive framework The Hollywood films discussed cover a wide range from 300 to Fifty First Dates from Brokeback Mountain to Lord of the Rings from Spider Man 3 to Fahrenheit 9 11 from Saw to Raiders of the Lost Ark and much more Individual essays consider such topics as the rules that govern new blockbuster franchises the posthumanist realism of digital cinema video game adaptations increasingly restricted stylistic norms the spatial stories of social networks like YouTube the mainstreaming of queer culture and the cognitive paradox behind enjoyable viewing of traumatic events onscreen With its cast of international film scholars Film Theory and Contemporary Hollywood Movies demonstrates the remarkable contributions theory can offer to film studies and moviegoers alike As Product in Contemporary Hollywood Nick Lacey, Roy Stafford, 2019-07-25 This teaching pack suitable for AS A2 Media and Film Studies offers a suitable case study for industry and institution and help students demonstrate an understanding of key concepts and contemporary Hollywood The "Disguised" Political Film in Contemporary Hollywood Betty Kaklamanidou, 2018-04-19 With strict guidelines on methodology and time frame films produced after September 2001 and a socio semiotic theoretical framework Betty Kaklamanidou unpacks the problematic terms and ideas that go along with defining a new genre Kaklamanidou considers a different sub genre per chapter placing each group of films in their socio historical context to reach conclusions about the production of political films in millennial Hollywood In shifting the terms of the debate The Disguised Political Film in Contemporary Hollywood offers a fresh new approach to the subject of the political film The political film is not a clearly delineated object but rather an elusive one and resistant to clear boundaries So what is a political film Can The Hunger Games 2012 belong to the same category as Lincoln 2012 Is Jarhead 2005 a political movie simply because it is set during the Gulf War but with no reference to the motives of the conflict and or American and Arab relations and thus in the same group of war films such as The Three Kings 1999 another narrative that focuses on the same military conflict but includes direct commentary to governmental and military strategies Are historical films by definition political since the majority deals with significant events and or people in a specific socio cultural landscape

Contemporary Hollywood Masculinities Susanne Kord, Elisabeth Krimmer, 2013-12-04 Kord and Krimmer investigate the most common male types cops killers fathers cowboys superheroes spies soldiers rogues lovers and losers by tracing changing concepts of masculinity in popular Hollywood blockbusters from 1992 to 2008 the Clinton and Bush eras against a backdrop of contemporary political events social developments and popular American myths Their in depth analysis of over sixty films from The Matrix and Iron Man to Pirates of the Caribbean and The Lord of the Rings shows that movies far from

being mere entertainment respond directly to today s social and political realities from consumerism to family values to the War on Terror Quality Hollywood Geoff King, 2015-11-30 What defines quality in contemporary Hollywood film Although often seen as inhospitable to such work the studios of the blockbuster franchise era continue to produce features that make claims to higher status Films such as The Social Network The Assassination of Jesse James by the Coward Robert Ford and Mystic River are marked as distinctive from the mainstream norm But how exactly and how are such qualities mixed with more familiar Hollywood ingredients as found in larger doses in other examples such as Blood Diamond and the blockbuster scale Inception Quality Hollywood is the first book to address these issues featuring close analysis of case study films critical responses and the wider notions of cultural value on which these draw Geoff King argues that such films retain a presence as a minority strand of studio output The reasons for this combine factors relating to economics the power of certain filmmakers and Hollywood s investment in its own prestige **Are You Watching Closely?** Seth Friedman, 2017-08-15 Are You Watching Closely is the first book to explore the recent spate of misdirection films a previously unidentified Hollywood genre characterized by narratives that inspire viewers to reinterpret them retrospectively Since 1990 Hollywood has backed more of these films than ever before many of which including The Sixth Sense 1999 A Beautiful Mind 2001 and Inception 2010 were both commercial and critical successes Seth Friedman examines this genre in its sociocultural industrial and technological contexts to explain why it has become more attractive to producers and audiences. The recent popularity of misdirection films Friedman argues is linked to new technologies that enable repeat viewings and online discussion which makes it enticing to an industry that depends increasingly on the aftermarket as well as to historically specific cultural developments That is in addition to being well suited for shifting industrial and technological conditions these films are appealing because they suggest that it remains possible to know what actually occurred and who was really responsible for events at a time when it is also becoming increasingly recognized that truth is relative Are You Watching Closely shows how Hollywood's effective strategies for these changing circumstances put it at the forefront of a storytelling trend that has increasingly become important across media Through close analyses of how misdirection films have been designed marketed and received in relation to their contexts Friedman demonstrates the ways in which they epitomize a kind of narrative experimentation that has become a crucial facet of twenty first century audiovisual storytelling
