Contemporary Marriage:

Contemporary Marriage Kingsley Davis, 1986-08-20 This fascinating symposium is based on an assumption that no longer seems to need justification that the institution of marriage is today experiencing profound changes But the nature of those changes their causes and consequences is very much in need of explication The experts contributing to this volume bring a wide range of perspectives sociological anthropological economic historical psychological and legal to the problem of marriage in modern society Together these essays help illuminate a form of relationship that is both vulnerable and resilient biological and social a reflection of and an influence on other social institutions *Contemporary Marriage* begins with an important assessment of the revolution in marital behavior since World War II tracing trends in marriage age cohabitation divorce and fertility The focus here is primarily on the United States and on industrial societies in general Later chapters provide intriguing case studies of particular countries There is a recurrent interest in the impact on marriage of modernization itself but a number of essays probe influences other than industrial development such as strong cultural and historical patterns or legislation and state control Beliefs and expectations about marriage are explored and human sexuality and gender roles are also considered as factors in the nature of marriage *Contemporary Marriage* offers a rich spectrum of approaches to a problem of central importance The volume will reward an equally broad spectrum of readers interested in the meaning and future of marriage in our society

A Cultural History of Marriage in the Modern Age Christina Simmons, 2021-11-18 Spanning cultures across the 20th century this volume explores how marriage especially in the West was disestablished as the primary institution organizing social life In the developing

world the economic social and legal foundations of traditional marriage are stronger but also weakening Marriage changed because an industrial wage economy reduced familial patriarchal control of youth and women and spurred demands and possibilities for greater autonomy and choice in love After the Second World War when more married women pursued education and employment and gays and lesbians gained visibility feminism and gay liberation also challenged patriarchal and restrictive gender roles and helped to reshape marriage In 1920 most people married for life in the twenty first century fewer marry and serial monogamy prevails Marriage is more diverse and flexible in form but also more fragile and optional than it once was Over the century control of courtship shifted from parents to youth and friends as opposed to kin became more important in sustaining marriages Dual wage earner families replaced the male breadwinner Social and political liberalism assailed conservative laws and religious regimes expanding access to divorce and birth control Although norms of masculinity and femininity retain huge power in most cultures visions of more egalitarian and romantic love as the basis of marriage have gained traction made appealing by the global spread of capitalist social relations and also broadcast by culture industries in the developed world The legalization of same sex marriage in over twenty five nations by 2020 epitomizes a century of change toward a less gender defined ideal that includes a continued desire for social recognition and permanence A Cultural History of Marriage in the Modern Age presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage

Jewish Marriage in Antiquity Michael L. Satlow,2018-06-05

Marriage today might be a highly contested topic but certainly no more than it was in antiquity Ancient Jews like their non Jewish neighbors grappled with what have become perennial issues of marriage from its idealistic definitions to its many practical forms to questions of who should or should not wed In this book Michael Satlow offers the first in depth synthetic study of Jewish marriage in antiquity from ca 500 B C E to 614 C E Placing Jewish marriage in its cultural milieu Satlow investigates whether there was anything essentially Jewish about the institution as it was discussed and practiced Moreover he considers the social and economic aspects of marriage as both a personal relationship and a religious bond and explores how the Jews of antiquity negotiated the gap between marital realities and their ideals Focusing on the various experiences of Jews throughout the Mediterranean basin and in Babylonia Satlow argues that different communities even rabbinic ones constructed their own Jewish marriage they read their received traditions and rituals through the lens of a basic understanding of marriage that they shared with their non Jewish neighbors He also maintains that Jews idealized marriage in a way that responded to the ideals of their respective societies mediating between such values as honor and the far messier realities of marital life Employing Jewish and non Jewish literary texts papyri inscriptions and material artifacts Satlow paints a vibrant portrait of ancient Judaism while sharpening and clarifying present discussions on modern marriage for Jews and non Jews alike

Harrell-Bond, 1975 No detailed description available for Modern Marriage in Sierra Leone Marriage in Contemporary Japan Yoko Tokuhiko, 2009-09-25 The phenomenon of bankonka postponement of marriage is increasingly reported in contemporary Japanese media clearly illustrating the changing patterns of modern lifestyles and attitudes towards marriage personal obligation and ambition This is the first book in recent years to explore the contemporary state of marriage in Japanese

society Setting out the different perceptions and expectations of marriage in today's Japan the book discusses how economic issues and the family impact on marital behaviour Contrary to the views of some feminists that young women have no interest in improving their status and position this book argues that by delaying marriage and childrearing young women can be seen as rebels challenging Japanese patriarchal society Unlike many other studies it gives equal attention to male gender roles and masculinity exploring what constitutes being a real man in Japan through the analysis of mainstream and non mainstream conceptions of masculinity that co exist in contemporary Japan and considers the implications of such different roles for the institution of marriage It investigates the roles of wife and mother articulating why the strict division of labour defining men as breadwinners and women as homemakers became popular Moreover it describes the changing character of courtship relationships explaining why the norm has shifted from arranged marriages pre 1945 to love marriages after that period Finally it puts the Japanese experience into cross cultural international context with a series of comparisons with marriage elsewhere both in Asia including in Korea and Hong Kong and in western countries such as France Sweden Italy and the United States **Life** ,1927
