Jain, 2009-06-01 This book examines India as a rising global power by reevaluating its foreign policy and relations from the Nehru period to the present through an analytical framework constructed from Indian foreign policy and the processes of globalization and regionalization Global Power describes the economic scientific technological and nuclear gains that have been made by India reaffirming its status as a major actor on the international scene The book presents a fundamental reappraisal of the ever changing relationship between India and other major and regional powers paying special attention to its relationships with China and Pakistan It seeks to shed light on Indian foreign policy goals as they relate to both national and international interests all the while keeping within the context of India's multiethnic multicultural and multilingual society Book jacket **Annual Report** University of Rajasthan. South Asia Studies Centre, 2009 **The Politics of Personal Law in South Asia** Partha S. Ghosh, 2018-05-11 The viability of the Uniform Civil Code UCC has always been a bone of contention in socially and politically plural South Asia It is entangled within the polemics of identity politics minority rights women's rights national integration uniform citizenry and of late global Islamic politics and universal human rights While champions of each category view the issue from their own perspectives making the debate extremely complex this book takes up the challenge of providing a holistic political analysis As most of the South Asian states today subscribe to a decentralised view and share a common history this study is an excellent comparative analysis of the applicability of the UCC In this work India figures prominently being the most plural and vibrant democracy as

well as accounting for almost three fourths of the region's population. This provides the backdrop for an analysis of the other states in the region. This second edition will be indispensable for scholars, researchers, and students of law, political science, and South Asian Studies.

Vulnerabilities, Challenges and Risks in Applied Linguistics Clare Cunningham, Christopher J. Hall, 2021-09-09. The chapters in this book call attention to vulnerabilities, challenges, and risks for applied linguistics researchers and the communities they work with across a broad range of contexts from the Global North and South and in both signed and spoken languages. Together they provide insights on both academic and professional practice across several areas: the vulnerabilities involved in researching the limitations of traditional epistemologies; the challenges inherent in the repertoire of methodologies and pedagogies employed by applied linguists; and the effectiveness of practical responses to language-related problems. The book encourages those involved in applied linguistics to consider their own practice and their relationship with the communities, policies, and educational contexts they engage with in the course of their teaching, research, and activism.

Encyclopedia of the Peoples of Asia and Oceania Barbara A. West, 2009. *Encyclopedia of the Peoples of Asia and Oceania* is a new two-volume A to Z reference to the peoples of the Asia Pacific region east of the Caspian Sea, not including the countries of the Middle East. More than 400 entries cover the major peoples that for a time maintained a cultural identity in the area from ancient to modern times, describing their history, migration, culture, belief system, social organization, and relationship to other peoples. This accessible resource makes it easy for students to find not only entries on the Han and Jurchens but also on Chinese nationality, describing who they are today with cross references to the various ancestral peoples. Entries on all large or well-known groups include information on their geography, origins, languages, history, and culture. Subsections cover such topics as subsistence, religion, social and political structures, economy, government, military practices, dwellings, and architecture, clothing, transportation, technology, art, music, and literature. The back matter includes a chronology, bibliography, and comprehensive index, as well as several appendixes with useful background information on topics such as kinship systems, religious systems, and subsistence systems.

Colonial Legacies And Contemporary Studies Of China And Chineseness: Unlearning Binaries, Strategizing Self Prapin Manomaivibool, Zhiyu Shi, Chih-yu Shih, Mariko Tanigaki, Swaran Singh, 2020. Colonial legacies in knowledge production affect the way the world is represented and understood today. However, the subject is rarely attended. The book *Colonial Legacies and Contemporary Studies of China and Chineseness: Unlearning Binaries, Strategizing Self* is about the colonial construction of intellectual perspectives of the colonized population in terms of the latter's approach to China and Chineseness in the modern world. Relying on the available oral histories of senior China scholars, primarily in Asia, authors from various postcolonial and colonial sites present these multiple routes of self-constitution and reconstitution through the use of China and Chineseness as category. The revealed manipulation of this third category romantically as well as antagonistically is easier than straightforward self-reflection for us all to accept that coming to identities and relations, none even subaltern, is politically
