Contemporary Reception Of Classical Rhetoric:

The Contemporary Reception of Classical Rhetoric Kathleen E. Welch, 2013-11-05 Responding to the reassertion of orality in the twentieth century in the form of electronic media such as the telegraph film video computers and television this unique volume traces the roots of classical rhetoric in the modern world Welch begins by changing the current view of classical rhetoric by reinterpreting the existing texts into fluid language contexts a change that requires relinquishing the formulaic tradition acquiring an awareness of translation issues and constructing a classical rhetoric beginning with the Fifth Century B C She continues with a discussion of the adaptability of this material to new language situations including political cultural and linguistic change providing it with much of its power as well as its longevity The book concludes that classical rhetoric can readily address any situation since it focuses not only on critical stances toward discourse that already exists but also presents elaborate theories for the production of new discourse Feminist Interpretations of Aristotle Cynthia A.

Freeland, 2010-11-01 Aristotle still influences our abstract thinking our search for principles and our reflections on virtue nature essence and sexual difference Feminists here concede that they too philosophize within the tradition founded by the ancient Greeks The contributors to this volume enter into new creative and subtle dimensions of inquiry about Aristotle from a broader feminist perspective

A Rhetoric of Doing Stephen Paul Witte, Neil Nakadate, Roger Dennis Cherry, 1992 Concerned with both the nature and the practice of discourse the eighteen essays collected here treat rhetoric as a dynamic enterprise of inquiry exploration and application and in doing so reflect James L Kinneavy's firm belief in the vital relationship between theory and practice his commitment to a spirit of accommodation and assimilation that promotes the development of ever more powerful theories and ever more useful practices A thorough introduction provides the reader with clear summaries of the essays by leading edge theorists researchers and teachers of writing and rhetoric A field context for the ideas presented in this book is provided through the division of the various chapters into four major sections that focus on classical rhetoric and rhetorical theory in historical contexts on dimensions of discourse theory aspects of discourse communities and the sorts of knowledge people access and use in producing written texts on writing in school related contexts and on several dimensions of nonacademic writing A fifth section contains a bibliographic survey and an appreciation of James Kinneavy's work The exceptional range of these essays makes *A Rhetoric of Doing* an ecumenical examination of the current state of mind in rhetoric and written communication a survey and description of what discourse and those in the field of discourse are in fact doing

A Synoptic History of Classical Rhetoric James Jerome Murphy, Richard A. Katula, Donovan J. Ochs, Forbes I. Hill, Prentice A. Mendor, 1995 The purpose of history is to help people understand the present by providing a sense of continuity to their lives The history of western civilization begins in Ancient Greece So much of what we observe around us art architecture poetry drama and political systems is derived from the Greeks Even religious beliefs and beliefs about the solar system emanate from the writings of Greek and Roman philosophers Writing itself is a phenomenon of Greek civilization Students seeking to understand the social impact of technologies such as writing print and television must begin their study with figures such as Socrates who was one of the first to be concerned with the changes in social interaction and consciousness wrought by the emergence of writing on portable material For students of language an awareness of the

classical world is particularly important The study of human discourse is an entirely western phenomenon As far as one can judge from surviving evidence the Greeks were the only people of the ancient world who endeavored to analyze the ways in which human beings communicate with each other Greece is therefore the birthplace of the art of discourse which includes not only rhetoric but also logic and grammar Although many other ancient civilizations produced literature only the Greeks produced analytic expository treatises that attempted to discover the actual bases of human communication Written treatises and school systems which allowed rhetorical discoveries to be transmitted to others enabled the Greeks and later the Romans to amass a considerable body of precepts to guide speakers and writers This body of precepts forms the basis for the study of rhetoric the art of human discourse This book provides a clear understanding of the classical roots of rhetoric While no single volume can account for every idea developed by the ancients on the art of rhetoric this book seeks to present the concepts that will most effectively provide today's student with a basis for understanding human communication The text contains essays about the period original treatises by ancient writers with modern analyses that elaborate on their rhetorical precepts and representative speeches given by celebrated orators of the ancient world In addition a bibliography of readings is presented for those who want to study this period more deeply **A Guide to Classical Rhetoric** Philip B.

Rollinson, Richard Geckle, 1998 This book provides comprehensive information about ancient rhetorical theory in the form of highly detailed descriptive summaries of all the important authorities and works from Greek and Latin antiquity including works as yet untranslated into English These comprehensive summaries are not intended to replace the originals but rather to make them more accessible and useful Pahe vii Essays on Classical Rhetoric and Modern Discourse Robert J.

Connors, Lisa S. Ede, Andrea A. Lunsford, 1984 Eighteen essays by leading scholars in English speech communication education and philosophy explore the vitality of the classical rhetorical tradition and its influence on both contemporary discourse studies and the teaching of writing Some of the essays investigate the rhetorical and historical issues Others show the bearing of classical rhetoric on contemporary problems in composition thus blending theory and practice Common to the varied approaches and viewpoints expressed in this volume is one central theme the 20th century revival of rhetoric entails a recovery of the classical tradition with its marriage of a rich and fully articulated theory with an equally efficacious practice A preface demonstrates the contribution of Edward P J Corbett to the 20th century revival and a last chapter includes a bibliography of his works **Linguistic Descriptions of the Greek New Testament** Stanley E.
