Reviewer's comments I was most impressed with this text and would recommend it. I would happily recommend this book for school college and in company use. I have not seen anything so comprehensive as this particular book. I would recommend this as a course text.

Contemporary Word Processing propels text production into the computer age. This single volume incorporates keyboarding specifically for computers together with comprehensive practice in word processing and core text production. Unlike standard text production titles it includes regular reference to computer techniques including file management, backups, scanning and defragmenting of disks, good development of keyboarding technique including numeric keypad fingering, specific guidance on use of fonts and point sizes for headings and text, particular attention to avoiding computer related health problems such as RSI, fatigue and eye strain, interesting and varied exercises in proofreading, keying in documents and editing drafts. Written for all students of text production from beginners to those at level 3, the book is applicable for use with any modern word processing package. It covers keyboarding practice in using
