IEEE Workshop on Content-Based Access of Image and Video Libraries (CBAIVL 2001) ,2001 This workshop held in December 2001 on Kauai discussed various means for retrieving information from digital images and video The proceedings features 20 papers grouped into the four themes of image content analysis and object based retrieval video content analysis content based querying and v **Managing Multimedia Semantics** Uma Srinivasan,Surya

Nepal,2005-01-01 This book is aimed at researchers and practitioners involved in designing and managing complex multimedia information systems Provided by publisher Multimedia Semantics Raphael Troncy,Benoit Huet,Simon Schenk,2011-07-18 In this book the authors present the latest research results in the multimedia and semantic web communities bridging the Semantic Gap This book explains collects and reports on the latest research results that aim at narrowing the so called multimedia Semantic Gap the large disparity between descriptions of multimedia content that can be computed automatically and the richness and subjectivity of semantics in user queries and human interpretations of audiovisual media Addressing the grand challenge posed by the Semantic Gap requires a multi disciplinary approach computer science computer vision and signal processing cognitive science web science etc and this is reflected in recent research in this area In addition the book targets an interdisciplinary community and in particular the Multimedia and the Semantic Web communities Finally the authors provide both the fundamental knowledge and the latest state of the art results from both communities with the goal of making the knowledge of one community available to the other Key Features Presents state of the art research results in multimedia semantics multimedia analysis metadata standards and multimedia knowledge representation semantic interaction with multimedia Contains real industrial problems exemplified by user case scenarios Offers an insight into various standardisation bodies including W3C IPTC and ISO MPEG Contains contributions from academic and industrial communities from Europe USA and Asia Includes an accompanying website containing user cases datasets and software mentioned in the book as well as links to the K Space NoE and the SMaRT society web sites <http://www.multimediasemantics.com> This book will be a valuable reference for academic and industry researchers practitioners in multimedia computational intelligence and computer science fields Graduate students project leaders and consultants will also find this book of interest **IEEE Workshop on Content-Based Access of Image and Video Libraries** ,1999 The

goal is to allow people to find in an electronic image library something that is similar to what they are looking at in order to help with such tasks as diagnosing diseases finding oil measure crop yields and identify environmental problems Six of the 22 papers present new methods of image **Image Feature Detectors and Descriptors** Ali Ismail Awad,Mahmoud Hassaballah,2016-02-22 This book provides readers with a selection of high quality chapters that cover both theoretical concepts and practical applications of image feature detectors and descriptors It serves as reference for researchers and practitioners by featuring survey chapters and research contributions on image feature detectors and descriptors

Additionally it emphasizes several keywords in both theoretical and practical aspects of image feature extraction The keywords include acceleration of feature detection and extraction hardware implantations image segmentation evolutionary algorithm ordinal measures as well as visual speech recognition

Heritage Preservation Bhabatosh Chanda, Subhasis Chaudhuri, Santanu Chaudhury, 2018-06-15 This book presents a unique guide to heritage preservation problems and the corresponding state of the art digital techniques to achieve their plausible solutions It covers various methods ranging from data acquisition and digital imaging to computational methods for reconstructing the original pre damaged appearance of heritage artefacts The case studies presented here are mostly drawn from India s tangible and non tangible heritage which is very rich and multi dimensional The contributing authors have been working in their respective fields for years and present their methods so lucidly that they can be easily reproduced and implemented by general practitioners of heritage curation The preservation methods reconstruction methods and corresponding results are all illustrated with a wealth of colour figures and images The book consists of sixteen chapters that are divided into five broad sections namely i Digital System for Heritage Preservation ii Signal and Image Processing iii Audio and Video Processing iv Image and Video Database and v Architectural Modelling and Visualization The first section presents various state of the art tools and technologies for data acquisition including an interactive graphical user interface GUI annotation tool and a specialized imaging system for generating the realistic visual forms of the artefacts Numerous useful methods and algorithms for processing vocal visual and tactile signals related to heritage preservation are presented in the second and third sections In turn the fourth section provides two important image and video databases catering to members of the computer vision community with an interest in the domain of digital heritage Finally examples of reconstructing ruined monuments on the basis of historic documents are presented in the fifth section In essence this book offers a pragmatic appraisal of the uses of digital technology in the various aspects of preservation of tangible and intangible heritages

Multimedia Content and the Semantic Web Giorgos Stamou, Stefanos Kollias, 2005-06-24 The emerging idea of the semantic web is based on the maximum automation of the complete knowledge lifecycle processes knowledge representation acquisition adaptation reasoning sharing and use Text based browsers involve a costly information retrieval process descriptions are inherently subjective and usage is often

confined to the specific application domain for which the descriptions were created Automatic extracted audiovisual features are in general more objective domain independent and can be native to the audiovisual content This book seeks to draw together in one concise volume the findings of leading researchers from around the globe The focus in particular is on the MPEG 7 and MPEG 21 standards that seek to consolidate and render effective the infrastructure for the delivery and management of multimedia content Provides thorough coverage of all relevant topics including structure identification in audiovisual documents object based video indexing multimedia indexing and retrieval using natural language speech and image processing methods Contains detailed advice on ontology representation and querying for realizing semantics driven applications Includes cutting edge information on multimedia content description in MPEG 7 and MPEG 21 Illustrates all theory with real world case studies gleaned from state of the art worldwide research The contributors are pioneers in the fields of multimedia analysis and knowledge technologies This unified comprehensive up to date resource will appeal to integrators systems suppliers managers and consultants in the area of knowledge management and information retrieval particularly those concerned with the automation of the semantic web The detailed theory based practical advice is also essential reading for postgraduates and researchers in these fields **Multimedia Technologies** Mahbubur Rahman Syed,2008 This book offers an in depth explanation of multimedia technologies within their many specific application areas as well as presenting developing trends for the future Provided by publisher **Multimedia Content Analysis, Management, and Retrieval 2006** Edward Y.
