Content Assignment:

Narrow Content Juhani Yli-Vakkuri, John Hawthorne, 2018-05-30 It is natural to distinguish for any thinking creature those events and states that are internal to the creature its brain states for example from those that are not Narrow mental content if there is such a thing is content that is entirely determined by the goings on inside the head of the thinker A central question in the philosophy of mind since the mid 1970s has been whether there is a kind of mental content that is narrow in this sense One important line of thought by externalists has been that so called intentional states such as wishing that they sky were blue and believing that the sky is blue are perhaps surprisingly not internal there could be twins who are exactly alike on the inside but differ with respect to such intentional states In the face of this wave of externalism many philosophers have argued that there must be some good sense in which our intentional states are internal after all and that such narrow content can play various key explanatory roles relating inter alia to epistemology and the explanation of action This book argues that this is a forlorn hope and defends a thoroughgoing externalism The entanglement of our minds with the external world runs so deep that no internal component of mentality can easily be cordoned off *Complete Accounting Course* David Himmelblau, 1927 Program of Work of the United States Department of Agriculture United States.
