## **Contentious Europeans Protests And Politics In An Integrating Europe:**

**Contentious Europeans** Douglas R. Imig, Sidney G. Tarrow, 2001 Is the process of European integration shifting the targets of social movements from the national arena to the European Union level Does the EU remain isolated from the reach of national democratic politics Or are social movements responding to the transnational issues posed by the European Union but continuing to do so by treading the traditional pathways of nation specific contentious politics Addressing these key but hitherto unexplored questions this groundbreaking volume explores how European citizens are responding to the growing policymaking power of the EU The contributors argue that the emergence of a supranational realm of European government offers new opportunities and constraints for domestic social actors In this new transnational realm groups such as environmentalists students and trade unionists can not only undertake traditional domestic forms of contentious action but also link together across national borders At the same time the volume cautions against rushing to herald a new era of transnational mobilization as significant barriers remain to launching contentious action in the transnational realm national governments continue to play a primary role in policymaking before the EU and tried and true routines of collective action and institutions attach citizens to their national political systems At the heart of the book is a newly developed theoretical framework which is rigorously tested against the evidence offered by the editors longitudinal and cross national database on contentious political action as well as by a series of sector specific case studies The combination of theory and original research will make this an important reference for scholars as well as a valuable supplement in courses on comparative politics Western Europe and social movements

**European Integration and Political Conflict** Gary Marks, Marco R. Steenbergen, 2004-02-12 Over the past half century Europe has experienced the most radical reallocation of authority that has ever taken place in peace time yet the ideological conflicts that will emerge from this are only now becoming apparent The editors of this 2004 volume Gary Marks and Marco Steenbergen have brought together a formidable group of scholars of European and comparative politics to investigate patterns of conflict that are arising in the European Union Using diverse sources of data and examining a range of actors including citizens political parties members of the European Parliament social movements and interest groups the authors of this volume conclude that political contestation concerning European integration is indeed rooted in the basic conflicts that have shaped political life in Western Europe for many years This comprehensive volume provides an analysis of political conflict in the European Union

**Contentious Europeans** Doug Imig, Sidney G. **The Political Attitudes of Divided European Citizens** Christian Lahusen, 2020-11-02 The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9781003046653> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license This book unveils the significant impact of the European integration process on the political thinking of European citizens With close attention to the interrelation between social and political divisions it shows that an integrated Europe promotes consensus but also propagates growing dissent among its citizens with both objective inequalities and the subjective perception of these inequalities fuelling political dissent Based on original data sets developed from two EU funded projects across eight and nine European countries the volume demonstrates the important role played by the social structure of European social space in conditioning political attitudes and preferences It shows in particular that Europeans are highly sensitive to unequal living conditions between European countries thus affecting their political support of national politics and the European Union As such it will appeal to scholars of sociology and

politics with interests in Europe and the European Union European integration and political sociology *The Failure of Remain* Adam Fagan, Stijn van Kessel, 2023-01-15 Studies of the United Kingdom's decision to leave the European Union Brexit have largely focused on the role of politicians and political parties on the one hand and the characteristics of Leave and Remain voters on the other *The Failure of Remain* offers the first comprehensive study of the UK's grassroots anti Brexit movement Emerging in the weeks and months following the June 2016 referendum this movement was the most significant and wide scale mobilization of pro European support that the UK had ever witnessed In *The Failure of Remain* Adam Fagan and Stijn van Kessel assess participants ideologies arguments and strategies Drawing evidence from first hand interviews an original survey of anti Brexit activists and an analysis of their campaign materials Fagan and van Kessel conclude that while the anti Brexit movement was successful in mobilizing a large number of pro European citizens its impact was limited by weak links to political elites and institutions divisions between organizations and activists and the absence of a clear stance on the UK's relationship with the European Union In the context of enduring debates about the future direction of European integration *The Failure of Remain* reveals the difficulties of formulating effective pro European arguments **Flexibility and European Unification** Alkuin Kölliker, 2006 Based on a theory of differentiated integration this book investigates the dynamics of flexible European integration across EU policies and member states By doing so it provides a theory based comprehensive and an empirical account of European integration from the perspective of legal differentiation

Governance and Civil Society in the European Union, Vol. 2 Carlo Ruzza, Vincent Della Sala, 2007-09-15 This volume focuses on the role of organized civil society in European public policies The contributions discuss the role of public pressure groups and their relations with organized business and institutional actors They examine the context of interest representation in EU institutions reviewing the functions and opportunities of EU lobbies and public interest groups in several policy areas These include environmental policy and the impact of environmental social movements and anti racist policy in the broader context of anti discrimination policy Several contributions suggest that policy making emerges from a fragmented coalition of NGOs politicians and civil servants operating in connected but distinct regulative environments
