Contest Ebays On Sports Culture And Politics:

When Technocultures Collide Gary Genosko, 2013-11-23 When Technocultures Collide provides rich and diverse studies of collision courses between technologically inspired subcultures and the corporate and governmental entities they seek to undermine. The adventures and exploits of computer hackers, phone phreaks, urban explorers, calculator and computer collectors, BlackBerry users, whistle blowers, Yuppies, zesters, roulette cheats, chess geeks, and a range of losers and tinkerers feature prominently in this volume. Gary Genosko analyzes these practices for their remarkable diversity and their innovation and leaps of imagination. He assesses the results of a number of operations including the Canadian stories of Mafiaboy, Jeff Chapman of Infiltration, and BlackBerry users. The author provides critical accounts of highly specialized attributes such as the prospects of deterritorialized computer mice and big toe computing, the role of electrical grid hacks in urban technopolitics, and whether info addiction and depression contribute to tactical resistance. Beyond resistance, however, the goal of this work is to find examples of technocultural autonomy in the minor and marginal cultural productions of small cultures, ethico-poetic diversions, and sustainable withdrawals with genuine therapeutic potential to surpass accumulation, debt, and competition. The dangers and joys of these struggles for autonomy are underlined in studies of RIM's BlackBerry and Julian Assange's WikiLeaks website.

Sport, Animals, and Society James Gillett, Michelle Gilbert, 2013-12-17 This book advances current literature on the role and place of animals in sport and society. It explores different forms of sporting spaces, examines how figures of animals have been used to racialize the human athlete, and encourages the reader to think critically about animal ethics, animals in space, time, and place, and the human-animal relationship. The chapters highlight persistent dichotomies in the use of and collaboration with animals for sport and present strategies for moving forward in the study of interspecies relations.

Competition is Killing Us Michelle Meagher, 2020-09-10 We live in the age of big companies where rising levels of power are concentrated in the hands of a few. Yet no government or organisation has the power to regulate these titans and hold them to account. We need big companies to share their power, and we, the people of the world, need to reclaim it. In *Competition is Killing Us*, top business and competition lawyer Michelle Meagher establishes a new framework to control capitalism from the inside in order to make it work for the many and not just the few. Meagher has spent years campaigning against these multi-billion and trillion-dollar mammoths that dominate the market and prioritise shareholder profits over all else, leading to extreme wealth inequality, inhumane conditions for workers, and relentless pressure on the environment. In this revolutionary book, she introduces her wholly achievable alternative: a fair and comprehensive competition law that limits unfair mergers, enforces accountability, and redistributes power through stakeholder governance.
